

Sloan 2021

TALENT DIRECTORY

London
Business
School

From the Dean

It is my pleasure to introduce an outstanding group of global leaders: the London Business School Sloan Class of 2021.

With an average of 19 years leadership experience, these Sloan Fellows form our School's most seasoned cohort. Their professional experience - gained within corporations, as entrepreneurs and in the public sector – spans a diverse range of industries. Together, they represent 22 nationalities and have a proven and remarkable record of accomplishment in their working lives.

Created in 1930 as the world's first mid-career degree in leadership and strategy, the Sloan Masters is now the pre-eminent full-time qualification for experienced leaders. It is offered by only three prestigious business schools globally: London Business School, Stanford Graduate School of Business and MIT Sloan School of Management. The programme provides an intensive, highly personalised 12-month learning journey focused around leadership, strategy and general management. Our Sloan Fellows' outstanding breadth and diversity of experiences and their interactions with faculty create a unique and dynamic learning environment that truly embodies the best of LBS.

The individuals that make up our Sloan Class of 2021 are already successful leaders, having had a profound impact on the way the world does business. In choosing to join our community, they have demonstrated a commitment to life-long learning anchored in academic research and enriched by the diversity and talent of the LBS network. Their insights and experience enrich us in turn. They are and will continue to be movers and shakers, inspiring excellence and delivering impact in organisations around the world.

At LBS, we feel particularly proud of the students we attract, select and prepare with our Sloan Masters. I look forward to celebrating the success of the 2021 graduates in the years to come.

Onwards,

François Ortalo-Magné

Dean

From the professors

"I've had the pleasure of teaching the Sloan programme for many years and it's no accident that those of us who are involved with the programme have a special affection for it. At LBS, discussions are lively. On the Sloan programme they are even more lively because participants bring such a wealth of experience. They also bring insights from years of working in different countries and environments ranging from sole proprietors to multinational giants and not-for-profits. The Sloan is not just another degree programme. It is a group of people determined to make a change at an important moment in their lives and I am proud to contribute to that."

Sir Andrew Likierman

Professor of Management Practice in Accounting
Former Dean at London Business School

"I was lucky enough to be assigned the Sloans when I arrived at LBS five years ago and it's been a fantastic experience since. For me, a big part of the enjoyment comes from the fact that many of the Sloans come to LBS to make a mid-career transition, and that is one of my primary areas of research interest. That makes conversations fascinating, not just because they bring such a wealth of experience but because so many are actively grappling with the "big questions:" Who am I? Who do I want to become? What do I drop; what do I take forward? As an instructor, it's really rewarding (and fun) to see your students engage in such a rich mix of personal and conceptual learning."

Herminia Ibarra

Charles Handy Chair in Organisational Behaviour
Professor of Organisational Behaviour
Chair, Organisational Behaviour Faculty

"I absolutely love teaching the Sloan programme because of the sheer range of expertise and knowledge in the room. Everyone is hungry to learn and mature enough to have made a conscious choice to invest in personal renewal of their knowledge and their career choices. I teach the core strategy concepts in the first term, which can be a shock to the system for those who have been out of the classroom for 20+ years, but by the end of the term, there is always a transformation in the way they absorb the new concepts and apply them to their own expertise. "

Jessica Spungin

Adjunct Professor of Strategy and Entrepreneurship
David and Molly Pyott Foundation Director, The Hive

"I have taught at Business Schools for over 30 years, and for over 20 years at London Business School. I can honestly say that there is no 'student group' that I have more enjoyed working with than the Sloan Fellowship. I taught them the core strategy course for several years and have subsequently had many of them in mixed elective courses over the years in Corporate-Level Strategy, Mergers, Alliances & Acquisitions and my latest course on Achieving Strategic Agility. They are a constant joy and challenge; no other group is as difficult to convince; as questioning of all propositions; as pragmatic in wanting to know how to actually make any 'great ideas' work; or as enthusiastic and realistic as to what can be changed and how. I love and admire them. They are a very special and unique group. It has been my greatest privilege to work with them in moving from their very successful first careers to whatever they see as worthy futures of challenge and contribution in equal measure."

Bio

Experienced attorney offering multidisciplinary and international expertise in a wide range of transactions, including mergers and acquisitions (by both private equity and strategic investors), joint ventures/co-investments, capital markets transactions (both debt and equity) and infrastructure development and financing, with a focus on the EMEA region.

Track record of professional and academic success in New York, Dubai and London.

Admitted to the New York State bar in 2013.

I am seeking to join a company's in-house legal team working closely with business teams to execute a variety of international transactions.

Career highlights

- US\$ 5+ billion Port Development and Operation Projects: led negotiations, structuring and drafting workstreams on behalf of the Saudi Arabian marine ports regulator in connection with three concession and development projects for container port terminals.
- US\$ 11 billion Gasification, Power, and Air Separation Complex: represented a leading U.S.-based chemicals company in a strategic co-investment and in negotiations with one of the world's largest petroleum companies.
- 40+ MW Data Centres: structured and negotiated a strategic 20-year multimillion U.S. dollar co-investment transaction for the design, development and operation of data centres in remote locations in the Middle East.

Alternative Investment | Private
Equity

Bio

Takashi is a senior vice president of Mizuho Financial Group, a Japanese banking group, with an 18-year career.

He has in-depth knowledge and extensive experience spanning general management, strategy, marketing and sales in retail banking and asset management business.

Takashi managed a project team consisting of 30 internal and external experts from October 2013 to March 2016 and built the foundation of Mizuho's asset management business strategy. His empathetic, collaborative leadership style and conceptual thinking were further refined in the process of leading the diverse members of the project team to design a long-term sustainable business strategy.

In the Asset Management Division, as team leader, Takashi was instrumental in a) coordinating collaboration among Mizuho's banking, trust, securities and asset management functions, b) developing the annual and mid-term business strategy, c) allocating and controlling the annual budget and human resources, d) enhancing relationships with institutional investors and financial authorities, and e) managing the progress of the banking account system renewal project.

Additionally, owing to his desire for better working conditions and healthier and more productive lives, he was elected as a Mizuho Financial Group Trade Union representative from 26,000 members from 2011 to 2013. As a union manager, he was responsible for many Mizuho Bank and Trust Bank workplaces, working on the development of a friendly working environment for the members. He also planned and operated events for enriching leisure time, promoting interaction between the members and self-development.

Career highlights

- Led the project team and proposed to executives necessary changes for the future growth on a) a historical view of asset management business in Japan, b) expansion of long-term diversified investment for individuals, c) the use of digital technology, and d) the ideal asset management company.
- Made a significant contribution to the long-term stability of clients' pension funds by developing an optimal pension sales structure and improving service delivery.
- Managed the management and post-merger integration of Asset Management One, which was created by the merger of three companies in 2016 and had ¥57 trillion AUM as of March 2021.

Bio

Konstanze is an experienced strategy and transformation leader. In her recent role at Marriott International, she led cross-functional projects and programs in post-merger integration, organisational restructuring, and strategy development across Europe, Middle East and Africa. She collaborated with the senior leaders globally to develop solutions and new strategies to improve efficiencies, control costs and drive customer acquisition and retention. Prior Marriott, she was responsible for the marketing strategy of the international division of STR, the global leader in hotel benchmarking. She successfully developed the international brand presence of the newly formed company and commented frequently on hotel performance trends at industry conferences and in the media.

The past roles enabled her to build upon her curiosity, creativity and ability to bring together different perspectives to get results. She is a thought-leader moving easily from the big picture to the detail and takes initiative to enhance business performance. A collaborator who together with senior stakeholders from various functions seeks solutions for business-critical challenges, gains alignment and drives change. Konstanze enjoys working in a fast-paced environment, working with cross-cultural teams to achieve excellent results for her clients.

Konstanze supports her family's art gallery and holiday apartment business and engages in her local community to enhance the wellbeing within it. She speaks English, German, and conversational French; and has lived in UK, Germany, and USA.

Career highlights

- Led the successful integration of teams and systems following the largest merger in hospitality for Europe. Collaborating with international stakeholders and senior leaders to plan and execute the change and project management of the transformation.
- Prepared analysis, insights and ideas to formulate key strategic responses to business challenges; developed and aligned on the three year strategy for Sales & Marketing disciplines in Europe for Marriott International.
- Built up brand and analytical capability in newly-formed company to gain global leadership. Respected and trusted commentator on performance trends to financiers, owners, operators and consultants in the hospitality industry.

Bio

Binoli Botadara has more than 16 years of a career track in fundraising, generating new businesses through strategic initiatives, and driving excellent relationships with key stakeholders in financial services. She has worked with industry leaders and managed family offices, large banks, NBFCs & HNIs, raising around \$160mil for alternative funds in long-only equity, Private Equity & real estate space on her own.

She is known for building businesses and distribution channels in her region. She has helped develop bespoke funds for certain banks & NBFCs after identifying the value curve in the product offering. She has been a part of the talent pool in all her organisation for special training & development.

She enjoys working in a dynamic environment and leads from the front authentically. She is a curious, growth-minded, and knowledge-seeking individual. Her biggest strengths are relationship management & leading multi-cultural teams.

She is extremely passionate about giving back to the less privileged. She has been working with blind women's non-profit of 3000+ blind women with household incomes of ~\$50 per month since she was 18. In addition, she is a globetrotter & passionate traveller, trained folk dancer, and amateur wine connoisseur.

Career highlights

- Successfully moved one of the largest wealth outfits to IIFL AMC due to the previous relationship management with Reliance AMC which generated a business of \$10mil in our equity alternative investment fund.
- Build distribution channels for the firm from single-member team to 50 members team which contributed 35% of the business to the top line.
- Successfully designed bespoke fund for one of the largest banks with the product team, ensuring the grand roll out in the whole country and running a sales drive with contests R&R. Resulted in \$350mil AUM and got recognised by the CEO & Fund Manager in townhall.

Bio

Arjun has successfully led multiple hierarchical organisations in high risk, time-sensitive work environments over the last 20 years. His core strength is his ability to develop, align and lead diverse teams in a synergised manner to achieve organisational objectives. In addition, his clear vision, sense of purpose and high tolerance for ambiguity have helped him scale and transform multiple organisations.

Having gained very diverse experience while handling operations, supply chains & logistics, infrastructure development, procurements & talent acquisition, Arjun thrives on challenges and excels in negotiations and crisis management.

He has also worked with IAI Malat (Israel) and DRDO (India) on R&D for drones and has been a pioneer in inducting drone technology & developing its infrastructure in India.

After completing his Sloan studies at the London Business School, Arjun is looking to transition into challenging consulting roles in operations.

Career highlights

- Set Up, Upscaled and Transformed multiple organisations while ensuring coherence, efficiency and alignment towards organisational objectives through inspirational leadership.
- Handled supply chains and logistics for troops deployed at super high altitudes (18,000 feet and above), while also managing infrastructural projects.
- Developed highly technical aviation infrastructure, established learning and development programs, and led a highly specialised technical workforce of 650 plus personnel in a complex hierarchical organisation while handling sensitive equipment worth more than a billion USD.

Bio

I am a global, consumer products industry executive with
expertise across every facet of the finance function.

- Progressive experience within PepsiCo finance function covering 20+ countries and 12+ business units across Asia, Australia, and Europe. I have held leadership roles across multiple organizational units ranging from market unit, e.g., ANZ Beverages \$350MM to divisional HQ, e.g., Europe HQ \$12bn.
- Successfully managed relationships with large, sophisticated business partners (Asahi, Suntory, Yum, Tesco, Walmart etc.) and grew the business in a mutually profitable way. Skilled in tough commercial negotiations with strong interpersonal / collaborative skills having successfully navigated multimillion dollar business development proposals (e.g., UEFA Champions League, Indian Premier League) across multiple layers of the organization. I am passionate about continuous learning and applying that to corporate situations.
- Co-led strategy development and implementation at divisional HQ, business unit and market unit at PepsiCo whilst driving alignment across multiple stakeholders. Created value for the business by identifying future growth drivers (e.g., revamped the economics of partnership between PepsiCo and Asahi, planned a future proof innovation pipeline in ANZ Beverages, drove \$25MM+ of advertisement productivity in Europe etc.).
- Acted as a subject matter expert for efficient resource allocation and aided multi-party negotiation for a corporate planning tool by collaborating with the Boston Consulting Group - initiative resulted in a more informed allocation of marketing budgets that drove +6% revenue growth. Partnered with PwC to design the structure and operationalize the Global Business Service centre for Europe.

Career highlights

- Developed the business proposal for PepsiCo's sponsorship of the UEFA Champions League football tournament valued at \$150MM+. Initiative delivered media benefits > \$450MM and enabled PepsiCo to target the critical "Fun Times Together" demand space.
- Presented with the PepsiCo Global Franchise Excellence Award in 2016 for outstanding delivery of strategic priorities in Australia. Recovered \$1MM of time-barred debt from Asahi (franchise partner) through intense negotiations spread over 6 months.
- Received the PepsiCo CFO Global Finance "Strategic Transformation" Award in 2014 in recognition of the innovative Bangladesh Snacks Franchising project, marking a first of its kind in PepsiCo's history.

Bio

Over the course of her twenty-year career, Mobola has gained a diverse set of accomplishments in private equity, management consulting and finance.

As a PE/VC investor, she managed a portfolio of high potential businesses and a family of investment funds that channeled smart capital into key growth sectors. In her combined role as Partner and Investment Principal, she made investments in companies that earned a commercial return but also provided positive social/development impact. Post investment, via board level representation and non-financial support, she worked to create value by playing an active role in the companies' development and the evolution of their strategies.

Recently, Mobola had the privilege of co-creating a pioneering gender-focused fund to invest in businesses in West and Southern Africa that have a significant impact on the lives of women. She has developed innovative interventions in the renewable energy space, working with multinationals and international funders to catalyze investment in sustainable off-grid energy solutions.

Mobola has been an active participant in the advancement of Africa's investment ecosystem. She collaborated with other stakeholders to birth Nigeria's first formal angel investing network and led the birth of a non-profit entrepreneur community to promote entrepreneurship as a catalyst for transforming lives. She has invested in building a deep network of business associates and spoken at conferences and panels about various topics concerning investing and development.

Career highlights

- Built a portfolio of 8 growth stage investments in financial services/ fintech, mobility, energy and agribusiness with a value of €15mn and an average cost/value multiple of 1.2x.
- As a non-executive director, worked with portfolio companies to execute on international expansion, navigate regulatory landmines, pivot business models, forward integrate into processing and launch a portfolio of digital financial products.
- Sourced a \$70mn pipeline of gender focused investments and designed and launched the Nzinga Bootcamp, which led to the successful close of Africa's first gender focused fund with \$100mn under management.

Bio

Sandeep is a serial entrepreneur with over 14 years of experience in establishing, building and leading innovative businesses across financial services, electric mobility, real estate and manufacturing sectors. In addition, he has hands-on experience in raising funds, investing and sale of businesses successfully.

He has significant skills in leadership, growth, turnaround, financial and operational skills. He is also adept at building high-performance teams and growing organisations through mentoring and support.

Sandeep has founded and run businesses with P&L responsibility and focus on business growth and profitability. In addition, he has experience in setting up international supply chains and distribution networks.

Sandeep began his career as an M&A banker with Rothschild in their corporate finance advisory teams in London and later in Mumbai, India. As part of these teams, he was involved in several landmark deals across various sectors, including infrastructure, real estate and media.

Apart from his entrepreneurial role, Sandeep also serves on the board of a large educational institution in India, leading the startup and entrepreneurship initiatives. He also previously worked on the board of a charitable school in Bangalore, India.

Sandeep has moved into a non-executive role at his organisations after joining the Sloan program.

Career highlights

In the last 14 years, Sandeep has been involved in setup, restructure and operations across seven companies. Some highlights include:

- Founded and setup electric vehicle company with manufacturing capacity of 200,000 units per year.
- Setup 18,000 MTPA facility for recycling lead acid batteries.
- Turnaround of a distressed company in equipment manufacturing through operational and financial restructuring.

Over the course of two decades, Leo has been driven to help organizations solve their most difficult problems. Leo's innate curiosity has led to him to take on diverse projects in a wide variety of arenas. The breadth of his experience includes serving as a strategic planner for the US Military, a Non-Profit Fellow working in poverty alleviation, and as a strategy and transformation consultation for leading international organizations.

This unique background has made Leo an award-winning innovator with a track record of bridging design, strategy, analytics, and operations. In his six years as a consultant, Leo has been instrumental in delivering transformations for his FTSE 100 clients in the UK, USA, Mexico, Brazil, Argentina, Colombia, and Italy.

Key to Leo's success is his inclusive approach to leading and facilitating multicultural and multidisciplinary teams, allowing the creation and implementation of highly effective solutions. As an engagement manager with client ownership, Leo believes it is possible to create an environment that fosters innovation and encourages creativity, while simultaneously ensuring that the client's brief is exceeded.

Leo began his career as an officer in the US Army where he led organizations ranging from 45 -1500 people in the USA, Europe, and Asia. Following his military service, Leo took a gap year and working as a Kiva fellow, helping women and the LGBT community in Ecuador access micro-finance loans. Since finishing his MBA and his Parsons MSc, his career has focused on helping companies transform their customer experiences a via a design-led approach.

Career highlights

- Redesigned a credit card customer journey for one of the largest banks in Mexico by applying a service design approach. Resulted in 28% increase in Net Promoter Score and reduced customer attrition by 45,000 customers per annum.
- Led a multidisciplinary team to redesign the operating model of the brands and marketing department (made up of ~1000 people) of a leading European bank.
- Planned and monitored the transportation draw down requirements for US forces in Baghdad and western Iraq, totaling over 30,000 soldiers.

Bio

Sandhya is a senior business leader with over 20-years of experience in sales & marketing, strategy planning, branded content and digital transformation within the media & entertainment sector, across offline and online media platforms.

She has led large multicultural teams, managed stakeholders and accelerated revenue growth across digital, electronic and print media. She has an entrepreneurial mindset focusing on learning, innovation, emerging trends, consumer behavior and attention to detail.

Sandhya is calm and composed under pressure, thinks laterally and finds innovative ways to solve problems. Her approach to business is a combination of logic, experience and instinct. While data substantiates most of her decisions, people are at the center of critical ones.

Her academic background in Psychology helps her understand and appreciate diverse mindsets, create a collaborative, and inclusive work environment. She is especially successful in translating customer and market insight into actionable business strategy and scale revenue.

Career highlights

- Led the Digital Strategy & Revenue business US\$ 3 million, nationally, for Moneycontrol.com; Indian equivalent of Bloomberg through a team of Regional Managers; before this, managed the strategic brand solutions business US\$ 9 million, for CNBC TV 18, CNN News 18.
- At Moneycontrol.com, she led strategy to drive business growth via diversified revenue streams, technology-aided solutions, subscriptions and transactions. Launched Gaming as a big business opportunity; introduced "Poker For People" initiative, US\$ 2 million.
- As national head for financial services advertising business US\$ 42 million, at The Times of India group, she launched new products resulting in market share growth from 24% to 40% over three years.

Bio

Laura has 20 years of leadership experience in the Telecom Sector, developed mainly in Europe and Latin America. Before joining the Sloan Programme at LBS, Laura was Finance Director for Operations and Transformation and Chair of the Digital Transformation Programme Management Board at O2 UK. Laura was also a Board Director of CTIL, O2's 50:50 network sharing joint venture with Vodafone since 2017. Prior to this, she was Head of Strategic Planning at O2 UK. In 2013, she was appointed Group Financial Controller for Telefonica Europe and served as Head of Investment for Telefonica Europe. Laura held different positions in the Finance, Strategy and Engineering areas of Telefonica, both at Telefonica Latin America in Spain and Telefonica de Argentina from 2001 to 2011. Her career started in the Business Division of Alcatel in 2000.

An Electronic Engineer by training, she graduated from the Buenos Aires Institute of Technology (Argentina) and holds an International MBA from IE Business School (Spain). In addition, she has attended Executive Development programmes at Stanford GSB (US) and LBS (UK). Laura has consistently been part of the talent pool of Telefonica and was awarded a full-time Fundación Carolina Scholarship to attend her MBA in 2005. She was selected as part of the first Women in Leadership cohort in Telefonica and leveraged this experience to mentor young female professionals in the company. She was a finalist of the 'GE Eco Imagination at Work' Competition in 2006. In addition, she won the First Prize 'Challenge to Excellence' by Procter & Gamble in 2000, a recognition awarded to young leaders that promoted change in their communities. A keen sailor, she enjoys taking part in regattas organised by the MBA Sailing League led by top Business Schools.

Career highlights

- As Chair of the Business Transformation Programme Management Board, led the implementation of enhanced governance by being the independent voice of customers and senior stakeholders.
- Owned, led the development and effectively implemented a single Strategic Plan to ensure a step-change in resource allocation and alignment of strategic, operational and financial plans with shorter planning cycles.
- Designed, implemented and led the roll-out of a New Investment Appraisal process to effectively manage Capital Allocation on the European footprint (6 countries) to increase synergies and optimise capital spend.

Finance

Industries / functions keen to explore

Business with social impact |
Fintech | Corporate Strategy

Bio

Mr. Yoshikazu Goto is a senior banker with nearly twenty years' career, including finance and enterprise risk. He works for MUFG, one of the largest financial institutions in Japan and has a lot of experiences working with C-suites such as Chief Risk Officer and Americas Chief Financial Officer to tackle company-wide agendas such as climate change risk and governance matters. Also, he had many opportunities to interact with board members through the operation of the Risk Committee under the Board.

Yoshi is an excellent communicator and negotiator. In addition to the experiences in risk and finance, he spent his career in project finance and was seconded within the Japanese government and experienced dealing with different parties, including politicians and government officials and coordinating various interests.

These communication and negotiation skills always require a lot of energy and effort. His passion is to make positive economic and social impacts on global communities through financial services.

And he has extensive international experience, including a financial manager role in MUFG Bank's U.S. subsidiary and project finance deals in Asia. His working locations have been changing every four or five years, and he always enjoys the cultural differences.

Career highlights

- Led the implementation of Risk Appetite Framework across all business groups of MUFG with Finance and Strategy teams for strengthening governance; approved by the Board.
- Established a new bonus scheme for two thousand employees in the U.S. subsidiary to implement pay for performance concept and maintained a balance between revenue and staff expense with H.R.
- Led and closed the financing of Indonesian coal-fired power plant project as Mandated Lead Arranger (totalling US\$2 billion).

Bio

Nitin loves travelling and making friends. Having started a sales & marketing career, he grew steadily and confidently into Leadership positions and has worked with some of the developing and challenger brands. He has been responsible for business establishment and driving growth in Indian and international markets across diverse functions. He has a proven track record of framing key strategic and analytical expertise, devising business strategy, managing P&L, and delivering long-term value and growth by leading, coaching, and mentoring diverse teams.

Professional Career

Daimler – Head of Regional Marketing and Sales – 4 Years
Largest commercial vehicles manufacturer in the world, Daimler entered the Indian market in 2016 with Mercedes Benz and Bharat Benz buses, in partnership with Wrightbus (UK). Nitin was responsible for setting up business in North India, where he hired, trained, and mentored over 80 team members to ramp up the buses business to \$15M in two years and for two years led and mentored over 200 team members to streamline \$200M trucks business through process interventions and innovations.

VE Commercial Vehicles (Volvo & Eicher JV) – Head of Strategy and Marketing – 7 Years

Nitin was co-responsible for the marketing division of buses and was promoted within 2 years as Head of Strategy and Marketing, where he led over 400 team members to deliver growth across \$400M bus business in India and \$1B in exports.

While he is not working, he enjoys test cricket, a quick game of table tennis, or hitting the open road driving with the top down.

Career highlights

- Led and established bus business for Daimler, Volvo Eicher Commercial Vehicles, and Mahindra Navistar.
- Established and grew developing and challenging brands across Sales, Marketing, Brand, Strategy, and Product Lifecycle in Indian and International Markets.
- Spearheaded collaborations across functions and organizations for Eicher Brand launch and Auto Expo India in 2010, 2014 and 2016.

Bio

Kenji is the COO of Adecco Japan, a global company with over 25 years of experience in the recruitment and outsourcing industry. He has expertise in sales management, sales strategy, sales marketing and outsourcing project management.

His diverse experience has enabled him to take a leadership role in Adecco Japan's market share growth, profitability and employee engagement.

Kenji has also been responsible for driving the global strategy to the Japanese market and has demonstrated strength in building relationships with multinational team members, increasing Adecco Japan's global presence and developing best practices in Japan.

As a leader of more than 1,700 people, he always has a customer focus. He has ensured that this is embedded in everyone's thinking, resulting in a significant improvement in the Net Promoter Score in 2020. At the same time, he continued to improve the sales, profit and margin.

As well as growing the business, he has been working over the past three years to change the working style and improve employees' productivity. As project leader, he has led the way in improving work-life balance, productivity, and engagement. He has also started a consulting business for clients on how to improve productivity.

After Sloan, he will be responsible for further expanding the company's market share in Japan. His goal is to expand customer-focused sales management to other countries as well.

Career highlights

- Achieved annual sales budget of more than € 1 Billion every year for the past three years, significantly improved the profit margin.
- Project Manager for a national BPO outsourcing project, winning the project, ensuring proper operations and contributing to the company's profitability by creating over 5000 jobs.
- Improved NPS and employee engagement scores through customer-focused management.

Bio

Passionate about diversity and connecting with different people, Paulo has built, in the past 18 years, an extensive international career with working experience in five different countries (Brazil, Spain, USA, Colombia and Singapore) and at least ten markets.

During this time, he has learned how to adapt to multi-cultural environments and understood that active listening and empathy are the ultimate skills needed to succeed in those settings.

Always recognized by his analytical skills, innovative thinking and complex problem-solving capabilities, Paulo has built extensive experience in strategic planning, business transformation, new product development, customer experience management, marketing strategy and project management.

Paulo is extremely collaborative and visionary from a leadership perspective, with a natural capacity for building and developing teams. He truly believes that a good working environment is essential to significant productivity, so he always manages to build healthy relationships within and beyond the working group.

Paulo is obsessed with continuous improvement and constantly seeks opportunities to grow professionally and as a person. He speaks English, Spanish and Portuguese with professional proficiency and can communicate conversationally in Japanese.

From a personal perspective, he loves travelling, experimenting with new things, eating good food, listening to music and spending time with friends and family.

Career highlights

- Developed and launched a new product and a new brand to provide accessible insurance product for a price-sensitive segment of the Brazilian market. This product represented 50% of the company's growth in the following year.
- Implemented the first digital distribution channel for the company in Latin America by developing an innovative and friendly platform for customers in Colombia to buy insurance directly from the company.
- Led the transformation of the customer experience governance, which improved the overall NPS by 5p.p. This initiative took the company's operation in Ecuador to the first position in customer satisfaction and Colombia up to the third position.

Bio

Kumar is an experienced professional with 15+ years combined experience in both industry and management consulting. He has extensive international experience in managing short and long-term projects in 10+ countries across six continents. He has worked extensively in North and South America, Southeast Asia, and the Middle East. He started his career in Oil & Gas (upstream) as a subsurface specialist with Baker Hughes, one of the global top 3 service providers in the Oil & Gas sector.

He later worked with a SaaS provider from the UK, leading their expansion effort in South East Asia. He was instrumental in setting up and growing their SE Asia business by 5x during his tenure there. Later he moved as a senior technical authority with a US-based oil & gas operator to help their new development project in Malaysia.

He spent the last 4 years with McKinsey & Co., a top-tier management consulting firm. At McKinsey, he was a part of their Recovery & Transformation Services and Operations practice focusing on global energy clients. There he led multiple projects in business transformation, growth strategy, operational diagnostics and improvement, large-scale capital project management for clients globally.

Kumar is currently pursuing Sloan Masters degree at LBS where he is focussing on topics such as corporate strategy, turnarounds, M&A, and organizational leadership.

Career highlights

- Led a team of 12+ client and McKinsey consultants to turnaround a distressed oil & gas producer in South America (~USD 60M in EBITDA - ~5-7% revenue increase; ~15% cost savings from 300+ under implementation initiatives).
- Managed accelerated commissioning of two capital projects (~USD 250 M value) – transport pipeline and liquid processing capacity in India. Effort resulted in ~3-4 months acceleration resulting in ~USD 20 M impact on bottom line.
- Developed a blueprint for digital transformation of central procurement department of a large NOC in SE Asia (~USD 5 B annual spend target).

Shiva served in the Indian Navy for 20 years as a Naval Architect, Shipbuilder and Product Owner across facets of programme leadership, contract management, supply chain management and technology innovation during the period of modernisation and indigenisation within the organisation. He has proven leadership in digital transformation projects making technical operations onboard ships more effective and proactive.

Over the years, he has led large multifunctional teams, matrix-managed third-party resources and directed suppliers to achieve project deadlines under budget and to specification. He has led and delivered large-scale multibillion-dollar ship building, engineering, procurement, installation and commissioning programmes and next-generation product development projects.

His visible and collaborative leadership, backed up with real-world commercial expertise and engineering background, enables him to analyse, simplify and resolve complex situations. Shiva's expertise lies in identifying potential, originating ideas and setting clear roadmaps and expectations to achieve objectives and goals.

Shiva has accumulated a broad knowledge base and has a proven ability to lead multidisciplinary resources from designers to construction contractors to facilities, HSE, digital tech work force, quality assurance, maintenance, engineering and operations personnel.

Career highlights

- Delivered 20 ships to schedule, cost and specification. Set up PMO and governance frameworks, implemented strict project standards, processes and practices, and oversaw all phases of construction, fit-out and sea trials.
- Mitigated potential five-fold cost increase to zero impact. Proposed, gained approval and implemented high-risk strategy to take ensure delivery of 14 vessels at a local shipyard, transformed operations, safeguarded livelihood of supply chain providers.
- Established 50+ new defence contractors in India and abroad. Spearheaded insourcing of technology, researched potential suppliers, led end-to-end processes & contracts and oversaw set up of in-country operations for products through N&B.

Bio

Manish has more than two decades of experience in Financial Services specialising in Business Management, Strategy and Restructuring. He has held senior management positions in multinational banks and has established himself as a trusted partner with senior members to drive sustainable business growth.

He has worked at JPMorgan as the Legal Entity Controller (LEC) for their India business. He was known for driving new products, set up robust Risk Management and Asset Liability framework which helped the bank to grow from a balance sheet of \$100m to \$1bn.

He then moved to a more business aligned role at Nomura Hongkong and then Singapore, where he built a robust client and trading business doubling their revenues. For example the revenues of Flow Credit product went up from \$100m to \$200m through stronger risk discipline. This also helped to grow the Structured Credit business from a balance sheet of \$400m to \$1bn. He was also responsible for managing the financial resources of the Asia business under very volatile market conditions with a Balance sheet of over \$25bn.

Manish believes in diversity and creating an inclusive work environment that can help achieve sustainable growth for the business. Social initiatives are another area where he is focussed and keen to make a mark.

Career highlights

- Promoted the FX business in Asia by analysing the market conditions and benchmarking the performance relative to markets and client activities. The desk revenues grew from \$300m to \$400m over 2 years with a staff of over 100
- Conceptualized and implemented a new risk metric to measure market depth and liquidity risk helping to grow volumes in client business and minimize stale inventory in Flow Credit products.
- Designed a compensation payment matrix for all traders and sales based on objective criteria helping to create the right culture of building a strong franchise and junior talent management.

Bio

Laura is a senior energy industry leader in the international oil & gas sector at BP. Building on her deep technical expertise in geoscience, Laura has delivered exploration projects globally, and led BP's upstream exploration portfolio team to formulate strategy and ensure value delivery of BP's worldwide exploration activity.

Laura is delivery oriented and leverages her drive for excellence to ensure high-quality outcomes in both fast-paced, rapidly changing environments and in long-term projects. With strong stakeholder management skills, Laura is calm under pressure. Laura's ability to integrate the technical and the commercial, communicate the complex clearly and succinctly, while keeping sight of the bigger picture, makes her a very effective partner to senior and C-suite leadership.

Currently a Sloan Fellow at London Business School. Laura is looking to explore opportunities with broad commercial and strategic scope in the energy industry.

Career highlights

- Led a major review of BP's Exploration strategy and results over the past two decades, presented to the Executive Leadership Team including CEO Bernard Looney. Resulted in a new set of global standards for 'how BP explores' rolled out to all staff.
- Turned around and transformed the way the Exploration Function gathered, analysed & visualized KPI data, both driving improved performance and greatly improving stakeholder relationships.
- Angola Exploration Manager, responsible for managing BP's Exploration activities offshore Angola: partner relationships, active exploration and appraisal drilling program, and recommending access to new exploration opportunities in W. Africa.

Bio

Neil McLeish is an experienced global leader and financial markets strategist with deep experience in global macro strategy, company analysis and fixed income credit trading risk management. He has a proven track record of leading a large and diverse global macro research team, helping a wide range of institutional clients to generate alpha.

Neil joined Morgan Stanley in 1992 after graduating from the University of Bath with a first-class degree in Business Administration. He spent the first 8 years of his career in fixed income credit research, leading Morgan Stanley's coverage of European Financial Institutions and then Credit Strategy, making the Institutional Investor all-star team multiple times.

At the end of 2008, Neil transitioned into Fixed Income trading to help lead the turnaround of the European credit business. He restructured and led a team of performing and distressed credit desk analysts while also focusing on the top-down risk management of the European Corporate Credit trading business. The business achieved record results in both 2009 and 2010.

In mid-2011, Neil moved back into Morgan Stanley's Research department to lead first the European and then Global Macro Research teams, ultimately including both Fixed Income Research and Economics. Focusing on the generation of well-integrated, collaborative insights delivered to both internal and external clients, the team moved into the top-3 global providers of sell-side fixed income strategy.

Career highlights

- Restructured Global Macro Research to improve performance and increase efficiency. Built a culture of collaboration and upgraded talent. Drove the team into the global top-3 among sell-side research teams, from outside the top-10.
- Part of the senior leadership team that turned around Morgan Stanley's European Credit Trading business in 2009 and 2010. I restructured the credit analytics team to drive revenues and reduce costs. The business generated record performance in both years.
- As a member of Morgan Stanley's Global Fixed Income Management Committee from 2012 through 2020, I was part of the senior leadership team that turned around the business and returned it to a top-5 global position.

FMCGs

Bio

I am passionate about driving superior supply chain performance and positioning the supply chain as an enabler for business growth by bringing relentless focus on Productivity, Lean/6Sigma, IBP/S&OP, Operational Rigor, and OUTSIDE-IN PERSPECTIVE. My global expertise in all disciplines of the end-to-end supply chain has been shaped by 25+ years of international experience within major global companies (Mars, Mead Johnson Nutrition, Reckitt), spanning Procurement, Quality, Operations, Supply Chain Management, and R&D roles. I have led Global organizations and lived in four different countries across three major continents.

Every supply chain, no matter how mature, complex, commoditized, should strive for excellence and pursue eliminating all types of waste (Defects, over-production, waiting times, excess inventory, transportation, motion, and most importantly, the waste of talent potential). This belief comes from the privileged multi-industry experience at top-notch FMCGs, driving seamless Lean transformations across manufacturing, planning, and innovation processes working collaboratively with other functions to optimize key business processes such as Innovation pipeline management and IBP/S&OP.

Following life philosophy, "If you want to go fast, go alone, but if you want to go far, go together" (African proverb), I have a passion for developing high-performance team environments, where TRUST and GOALS ALIGNMENT are anchors to drive behaviours. Having lived and worked in both developed and developing countries (Brazil, Mexico, the USA, and the UK), I value diversity and can connect, build trust and inspire international x-matrix teams to make "impossible happen".

Career highlights

- Strategic network design of Global manufacturing footprint to improve lead-time and total landed cost of goods while providing overall productivity of 6%.
- Fast & Agile program implementation at Regional supply chain halving total supply lead time to markets and recognized as best global supply chain innovation by Gartner.
- Leadership of Supply integration for two major FMCGs post-M&A.
- Creative & Operational Audacity to launch the most flexible candy bar operation.

Bio

Originally from Essaouira, in southern Morocco, Maryama was fortunate to grow up near the ocean, absorbing the tranquility and creative atmosphere that would give her a great deal of inspiration. Extremely people orientated, Maryama is fascinated when learning about individuals' stories and backgrounds. She is a loyal friend and colleague, dependable and willing to go the extra mile to help others, believing everyone matters and has value. Well-traveled, Maryama has spent time in Asia, particularly Japan, finding out more about the culture and its powerful impact on society and business.

Stepping into a corporate environment following the completion of her engineering and business studies, she relocated from Morocco to Paris, progressing to Program Purchasing Leader in Faurecia Interior Systems, a global leader in automotive technology. This move ignited her interest in technology and innovation, and she quickly gained commercial exposure, supporting business scale-up into Korea and Turkey.

Boosting her professional profile, Maryama joined Valeo, a world leader in vehicle electrification, and landed strategic and business development leadership positions in France and Japan. As an advocate of transformational change, she champions initiatives that enable organisations to rapidly pivot and shift direction, spanning people, process and technology. Turning around under-performing entities is one of her fortes, producing compelling organic and inorganic growth strategies tailored to stimulate revenue growth.

A true asset to any company she joins, Maryama has solid mobility and smart city sector experience and impressive strategic acumen, embedding sustainable goals into global corporate visions. She takes an active role in social and environmental challenges through her active involvement in several non-governmental initiatives.

Career highlights

- Transformed one of Valeo's Japanese entities into an innovation driven business, and accurately assessed social challenges and regional markets to formulate a successful growth strategy that inspired future revenue growth.
- Pioneered women mentorship programme that encouraged individuals to remain in Valeo and automotive sector.
- Cultivated strategic partnership between Valeo and NTT Docomo, a leading Japanese mobile operator that accelerated development of new 5G products, including Voice-to-Speech and XR technologies.

Bio

Srini is an international management consultant with experience in counselling senior corporate clients through Tier-1 consultancies. His topics of expertise include digital-led strategy formulation and implementation, enterprise agility, digital business building and capability building for senior leaders. Having advised clients in diverse sectors including banking, financial services, technology providers, software and media spanning 15+ countries across Asia, Australia, Europe and North America, he brings in thought leadership across some of his core topics viz., enterprise agility, organisational capability building and digital strategy.

Srini's consulting experience is drawn on two pillars of his strength – first his approach to continuous unlearning and learning and second, is his fact-based and hypothesis-driven approach to problem solving. By separating facts and opinions yet approaching both with humility, Srini brings in empathy in critical conversations.

As a topical expert, Srini co-led creation of research-led point of views and helped hire fellow experts and associate partners for the consulting firms he had worked with. He has presented in national forums including India Digital and Analytics Summit as an anchor for agile and organisation change topics.

Srini maintains active interests in yoga and photography, besides reading.

Career highlights

- As an engagement manager, led from ground-up, set up of a 200+ member digital workforce for a leading bank in south east Asia spanning digital marketing, risk management, credit appraisal and underwriting functions for their retail asset unit.
- As an organisation expert up-skilled mortgage business unit and counselled senior leaders in agility, change management & leadership. Led venture-build of mortgage platform for a regional bank in Vietnam with reimagined customer journeys resulting in 60% TAT reduction.
- As a principal advisor, co-led future-proofing of a global technology services and software player in their quest to stay competitive. Led client vice presidents of engineering and agility in evolving play book for their digital and engineering organisations.

for Energy | NED

Bio

Bringing people together and getting the best of them. Over his 20-years career, Elerson guided teams achieving excellence through collaboration among members, internal clients, and relevant stakeholders. Building on his powerful communication style and strong belief in learning and people's development, he became an Oil & Gas senior executive successfully leading multi-million budgets and hundreds of people in Operations, Offshore Staffing and Supply Chain Management. He is passionate about being positive and encourages experimentation, innovation, and continuous improvement. In recent years he acted as a mentor and coach beyond the frontiers of his departments, supporting the entire company in its culture-changing effort.

Coming from Brazil, Elerson inspires and helps people in their self-development based on his own experience. He learnt English, paying for the classes working in the English Center. Understanding the importance of becoming an effective leader, he earned two Executive MBAs degrees from top-tier Brazilian Business Schools. One in Business Management, from a school partnership between Fundacao Getulio Vargas (FGV) and the University of California Irvine, and another in Finance at IBMEC-RJ.

Now, with his lifelong learning mindset, Elerson amplifies the impact of his leadership at the London Business School, knowing that his journey will continue. He looks into the Energy Transition and wants to contribute to the considerable effort required from Oil & Energy, and Renewables Industries – strategies being reset and companies getting reinvented.

Career highlights

- High learning capacity and adaptability proved when transitioning to the Oil & Energy Industry in 2010, taking the lead of a USD 100+ M/year Subsea Pipelaying Project, starting it up, aligning stakeholders (Client, Supply Chain, Engineering, Finance and HSEQ) and delivering a 98% uptime performance and a Safety mark of 1 LTI – Lost Time Injury in 3 years.
- Led and guided the Offshore Staffing team in Brazil when the offshore crew increased from approx. 800 to 1,200 people over two years. Intensive work of hiring, training & developing, and offshore familiarization with positive results in Safety and Performance. Gross costs of approx. USD 55 M/year with an average cost reduction throughout increasing wages.
- Implemented the Office Floor Management methodology into the Supply Chain Management routines improving the original KPIs by >50% in 2 years. Led and managed the team through the first months of the Pandemic with a close look into the team's well-being, support in delivering urgent demands from offshore operations and a drastic renegotiation of all in-course contracts - total savings of about 8%.

Bio

Takashi is an experienced leader working in diverse geographies and multinational teams in large global organisations in the IT and manufacturing industry. His experience ranges from product development to channel management, business management to operations, and product life management to business incubation. He worked for global markets, covering Japan, Asia, the Americas, and EMEA, whilst based in Tokyo, Japan, and managed European operations whilst based in Germany about 5 years ago.

Teamwork and collaboration are Takashi's leadership style and advantage to make the organisation's output maximised by collaborately working inside the company across the organisations and external teams and stakeholders together as one team. Takashi is an experienced problem solver and disrupter who is relentless in challenging the existing processes and driving to achieve the organisation's goals.

His passion for the new products, emerging technologies, and achieving the goals by strengthening the team led to deliver impactful results for the companies he worked for.

Career highlights

- Helped managed partner company's business' grow by more than double in one year and ensured they do not lose their advantageous managed partner status. Turned the partner companies into reliable partners and pushed up to higher rankings.
- Successfully introduced new products into new market establishing local sales channels working with both internal and external organisations.
- As a deputy-GM for the European operation, managed 7 regions including the UK closely working and helping regional teams to deliver the products and services for their customers to achieve the business targets.

Bio

Adrien is a senior executive leader with 24 years experience delivering global strategy and business, operations, and digital transformation in capital markets, private banking, international development, and microfinance – by leading global strategy to increase revenue, mitigate risk, and achieve regulatory compliance. He is passionate about transforming businesses and leading people to achieve sustainable impact, growth, and performance.

He is an expert at strengthening organisational and cross-functional collaboration and governance; and implementing operational excellence, innovation, and agility for greater performance and client engagement. Adrien has worked for Deutsche Bank, HSBC, BNP Paribas, and Ernst & Young in capital markets sales and trading, business development, and COO change and transformation. He has successfully led teams to deliver targeted business benefits by implementing digital and data transformation, innovative and customer-driven eCommerce and data analytics capabilities, and end-to-end risk, IT, and operational change.

Adrien has also led global strategy execution and optimisation for the world's largest child-focused NGO across 100 countries to achieve the United Nations Sustainable Development Goals (SDGs); and enabled the prioritisation of c.\$3bn donor funds to optimise impact via a new funding model, revised governance, and leading the development and rollout of a new annual business planning approach. He served as the Chief Strategy & Impact Officer delivering financial inclusion through microfinance in 60 countries impacting over 3.5m children.

He was a management consultant and school teacher, is an active NHS volunteer, and mentors young adults to help them realise their potential and be their best. Adrien has travelled to over 100 countries, and is passionate for cultural food adventures having lived and worked in Europe, the Americas, Asia, and Africa.

Career highlights

- Led Client Relationship Management and Data Strategy for a global investment bank: leading selection and rollout of a new global CRM, and the development and rollout of a \$400m business benefits-driven global data strategy meeting regulatory change.
- Developed and launched a new Board-approved 10 year strategy to impact 30m children in 28 countries through financial inclusion; and helped enable an INGO to build resilience in fragile contexts by adoption of a new adaptive programming approach to maximise beneficiary impact.
- Member of the ICMA SteerCo, where Adrien helped design and lead a new market operating model and industry-leading digital platform facilitating credit bond syndication to drive market efficiency, client distribution, and revenue.

Varsha is an experienced Vice President in Corporate and Investment Banking and a trusted board adviser, strong communicator, and critical thinker. She advised the senior management on over 30 large scale debt transactions and has a proven track record of handling some of India's largest local and multinational clients across geographies (EMEA, APAC and US). She managed clients across industries viz., E-commerce, Healthcare, Hospitality, Real Estate, Aviation, IT, ITeS, Manufacturing, Engineering, Food and Beverages amongst others over the last 13 years.

Varsha brings with her a vast global experience and an outlook best in class analytical, financial and tactical skills. With skills in loan agreement negotiation, ability to deal with complexity and negotiations she brings with her the passion for relationship building, strategic dialogue and long -term value creation.

With a very customer centric attitude, she is motivated by seeing her clients thrive. She also worked extensively in monitoring and risk management areas in corporate entities and is focussed on finance, financial sustainability, financialisation of environment protection and strategy.

Varsha is a strong supporter of diversity and inclusion, and a passionate supporter of the financial independence of women and corporate representation.

Career highlights

- Senior client banker having worked at ICICI Bank and HSBC, clients included ABB, Alstom Transport, 3M India, Amazon, Walmart India (Flipkart), Toyota Group, Bangalore International Airport, Diageo etc.
- Handled a loan portfolio of GBP 2.00 billion across 125 clients with a team of 16 Associate relationship managers.
- Ranked one among the best performing Senior Client bankers across the country. Widely acknowledged for contributions in the 'Large Client' and 'MNC relationships' for origination.

Bio

Fabio is a C-Suite Executive (General Manager, Vice President, Managing Director), Independent Consultant, Business Lecturer, with over 25 years of business experience gained over four continents.

He has always been driving innovation and business development in several industries, over multiple territories by supporting and leading multicultural teams within startups and large well established organizations.

Fabio worked in Europe, North America, Africa, Asia & the Middle East in sectors like sports, media, new media, entertainment, nonprofit, academia, food, IT, automotive and factory automation, serving companies like CONIFA, IMG, Infront, Walt Disney, Microsoft, NeoNetwork, Zattoo, Qatar SportsTech, American Express, Tsubakimoto, UAE FA Management Academy, University of Rome, Open House, etc.

He enjoyed and learned how to be an effective team player in multicultural environments, highly committed to empowering teams and organizations by leadership and a global entrepreneurial mindset.

At the London Business School, Fabio has been studying and exploring the feasibility of new business concepts: a new form of a vertically integrated incubator, an integrated payment & savings service for consumers, a redesigned value chain for the fast-food industry, an international integrated group of sports organizations, socially oriented international events on arts and sustainable living.

Career highlights

- Launched: > first ever pan-European and East Asia sports WebTV > integrated web-mobile-TV interactive formats > first ever turn-key tablet-based inflight entertainment system.
- Managed international sports events (CONIFA World, Euro and Africa Cup), the international exposition Open House on arts, culture and sustainable living.
- Mentored tech start-ups hosted at the incubator Qatar SportsTech.
- Established experiential USA-Europe business programs for graduate and undergraduate students.
- Designed entry strategy and managed joint venture of new Italian brand categories in Asian markets.

Ali is an energetic and result-oriented leader with core expertise in strategic planning & execution, capability building, and global delivery management of technology transformation. He has a successful track record of leading global multi-cultural teams through challenging conditions and achieving stretch targets.

Over the past 20+ years, he led multiple transformation programs to implement cutting edge technology solutions for large Telecom operators around the world. He has a strong customer focus and has worked with CTO/CIO teams in defining and implementing next-generation IT systems that leverage the telecom network and bring value to both operators and subscribers.

Ali is an expert in IT delivery frameworks for large programs delivering substantial financial and performance benefits. With experience in building and coaching teams with niche technology skills to achieve specific business objectives, he has set up and led large teams in multi-location and culturally diverse environments. He has working experience across multiple countries – the UK, The Netherlands, Bahrain, Dubai, Jordan, Nigeria, Chile, and Columbia.

He is exploring entrepreneurship in the HealthTech space with a vision to create an impact on peoples life.

Career highlights

- Led technology transformation program for a leading European cable operator. Successfully scaled up the project team from 80 to 300 spread across multiple locations in the Netherlands and India; increased revenue from \$2M to \$20M.
- Scaled a team of niche technology experts from 50 to 120 and successfully deployed them on technology implementations projects across Latin America, Europe and Middle-East Asia.
- Led a team of 300+ technology experts to deliver one of the largest CRM transformation project for a large telecom operator in the UK.

Bio

Galina is an international Finance Leader with solid experience in large organisations in the consumer goods industry. Galina focused on getting the best out of herself and her team. She constantly shaped her experience and directions, leading cross-functional and cross-cultural digital and operational projects.

She has strong record in financial control, business performance, e-commerce and operational excellence. Working for Kingfisher PLC for over 14 years, Galina had the opportunity to work in Russia, France, Poland and over the last 4 years in the UK. She is accountable, approachable, and committed to providing business partnership and strong finance service with a constant focus on delivering sustainable business growth, efficiency and customer satisfaction.

Galina has a great capacity to learn and adapt to economic and regulatory changes, and she managed teams of up to 200 people with 5-9 direct reports. She has always been concerned about business growth and new objectives for organisations. Galina is naturally inclined to forward-thinking to ensure the long term success of the team and the organisation.

Understanding the customer journey, energy, and power helped Galina design new business opportunities for organisations and drive innovations in processes and products.

Career highlights

- Finance and operational turnaround for the UK business (£3.5bn) establishing Finance Shared Service in Poland and outsourcing various functions in the UK.
- Sponsored partnership to drive digital innovations. Sufficient project portfolio from Tax Digital to SRM and Stock replenishment.
- Maintained business expansions ensuring awareness of commercial opportunities, Capex payback and e-commerce.
- Commercial and retail strategy for emerging market and the UK (from decentralisation supply chain to centralisation sourcing and logistic) through effective collaboration, planning and controls.

Corporate turnaround and
entrepreneurship for family
businesses and SMEs

Bio

Ryutaro has a unique background: After 17 years as a TV director at Nippon Television Network Corporation (NTV), Japan's largest commercial television network, where he was directing teams to produce programmes, he moved to take charge as a board director in his family's business in 2018, an electronic component manufacturing, leading its turnaround successfully.

His strength is 'creativity'. As a TV director, he produced much original content. After the transition, he also invented original products in the electric component manufacturing industry, turning around the company and bringing in massive profits.

In addition, he is an excellent 'storyteller'. As a TV director, he wrote a scenario of his documentary programme, which successfully transformed into a business context and become a visionary leader with powerful business storytelling.

After the Sloan programme, he will take over the company and aims to expand domestic business globally. London Business School has enhanced his strategic thinking and transforming capabilities in a changing environment and is looking forward to enhancing his network across the globe.

Career highlights

- Successfully changed the organization by establishing a new Digital Transformation (DX) division in 2020 to lead the transformation from a BtoB business model to a DtoC model through digitalization.
- Led R&D and manufacturing divisions in the launch of the new product, '-5C smartphone case', which cuts electrical heat and improves functionality; annual sales increased 1.7% (\$100,000) through his original inventions for consumers, including this case.
- Supervised 20 production staff and directed documentary programme, 'Old Enough', focused on child's first errand apart from parents; gained 16% rating (over 20 million people watching), and best documentary viewership in Japan.

Bio

A seasoned Assurance, Risk Management and Corporate Governance professional with almost two decades of professional experience with the Big 4 consulting firms and world-class corporations. Ahmed has extensive experience with high profile executives and boards.

Ahmed is a former Chief Audit Executive for a world-class academic medical centre. He is a methodical and goal-oriented leader, yet empathic, adaptable, and resourceful.

Ahmed is an ESG Doctoral researcher, passionate about healthcare, sustainability, and governance with an in-depth knowledge of ESG frameworks TCFD, SDGs, SASB and GRI.

Ahmed has led transition and transformation programmes as well as outsourcing and developing on-site and off-site teams delivering excellent value. He believes in collaboration and creating highperforming teams with a clear vision and purpose, and providing mentorship and coaching to nurture individuals through their career journeys.

Ahmed received PwC Award for "Delivering Exceptional Clients' Value" in 2015.

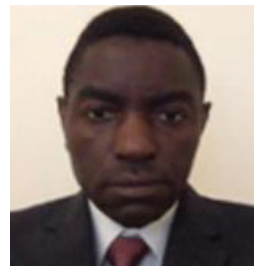

Ahmed is at his best when he is solving important problems in challenging and ambiguous environments. He is a value and relationship creator who believes in long-lasting connections that foster trust and impact. He truly appreciates the significance of culture, values, inclusion and governance.

Career highlights

- Ahmed advised organizations and high profile executives on corporate governance, internal auditing and assurance leading practices. He is a member of the global committee of research and education advisors of the Institute of Internal Auditors.
- Ahmed built-up a new professional service line at a Big4 consulting firm. He established the internal audit department and corporate governance practices for a leading healthcare corporation.
- He identified new business opportunities and advised boards on implementing risk mitigation measures, contributing to reducing strategic, operational and financial risks.

Bio

Elvis is an entrepreneur, innovator, and a visionary leader at heart. Driven by a personal belief that the time is now for Africa to harness its natural resources for transformative technologies, Elvis aims to contribute to Africa's electrification efforts through sustainable energy storage technologies.

With unquestionable project management proficiency from concept to commissioning across a diverse range (and geographic contexts) of process industries together with deep experience in building and leading cross-functional/multi-cultural teams, Elvis will be comfortable in any capacity at any stage in the life cycle of a large and complex engineering project. Having already lived and worked in six countries (Australia, New Zealand, Saudi Arabia, South Africa, UK, and Zimbabwe), he quickly adapts to new cultural environments.

Elvis thrives in complex and ambiguous environments demanding creativity in problem solving, strategy development, and leadership. A fast and excellence-focused learner; challenge, curiosity and discovery are the fuel of his engine, without which life will stall.

Elvis' expertise in renewable energy materials is demonstrated by his published innovative research spanning a range of technologies including lithium-ion batteries, zinc-air batteries, hydrogen, fuel cells, and thermoelectrics.

Career highlights

- As Lead of the African Union Development Agency (AUDANEPAD) Expert Panel on Next-Generation Batteries, developed the continental strategy for the adoption of emerging battery technologies in Africa.
- Co-founded a biodiesel manufacturing company and served as its Technical Director for 9 years (2006 – 2015).
- Successfully managed and delivered the detailed engineering of a NZ\$35M kraft pulp mill upgrade project.
- On-time and on-budget efficient delivery of a NZ\$3m project involving engineering, procurement, construction and commissioning of a new alkali products manufacturing plant.
- Research in renewable energy materials, publishing over 25 peer-reviewed papers (https://scholar.google.com/citations?user=U_4rel4AAAAJ&hl=en) and securing a US\$274,000 research grant.

Bio

Ranjana is passionate about creating an impact and leading a purpose-driven life, specifically in women empowerment, healthcare, and education.

She has gained a diverse range of experience at multinational companies across various industry sectors, including consulting, manufacturing, and IT services. As a business enabler, she has led various process improvement and cost reduction initiatives. Have been instrumental in leading successful and effective internal and external audits whilst managing stakeholders.

She is highly experienced in areas of security, controls and risk management. Before joining LBS, she was an independent consultant, advising and laying the compliance models, internal controls and governance frameworks for companies, creating business value and minimizing risks. She has ensured compliance to access control guidelines, Segregation of Duties framework, standard operating procedures, approval authorities, SOX, ITGC controls. She is versed in working closely with stakeholders (CIOs, internal auditors, risk managers, quality directors, business process owners) to assess the as-is complexity and pain points to provide solutions using technology.

She possesses strong people and networking skills that are key to build any kind of relationship personally and professionally. A determined and curious person, always eager to learn, innovate and adaptable to changes.

Career highlights

- Spearheaded entire hiring and set-up process of diversified internal teams for enhanced business satisfaction, reduced turnaround time and 50% cost reduction by replacing external vendors and consultants.
- Reduced non-compliance fee by 50% during Audit thereby generating savings of ~1m Euro. Subsequently, implemented a sustainable control solution to be compliant.
- Managed projects to implement cost effective compliance tools to restrict potential frauds pro-actively.
- Appointed as an interim global risk manager for a one-year period to assess change control processes.

Bio

Sally is a seasoned business leader with more than 15 years of experience. She has successfully delivered sales result. She has a track record in building strong relationships with strategic distribution partners, e.g., HSBC and Citibank, to drive them to deliver sales results. She is good at tailoring effective marketing strategy.

Most recently, she was appointed as the Head of Retail Bancassurance of AXA, with P/L accounting for the total premium of

£128.5 million portfolios of general insurance policies. She led teams across different departments to overcome great challenges during the crisis and grew the team members' capabilities by effective coaching. She was one of the members of the AXA Hong Kong Talent Pool. Before she joined AXA, she worked in HSBC and BOCG Life insurance company. She was specialised in tailoring a wide range of life insurance products, e.g., Universal Life, Endowment, Term Life, etc.

She obtained her Dip CII (Diploma in Insurance - Chartered Insurance Institute) in May 2021. It showed her passion for the insurance industry. She got lots of creative ideas. She and her team won the internal competition held in AXA as the 2nd runner up for the innovative product award in 2019.

Sally will start her summer project in LifeSearch Insurance, one of the leading insurance broker companies in the UK. She is interested to know more about the UK insurance market and the local customers' needs. In addition, she is now working with the Executive Vice President of Micro Insurance Company to explore the feasibility to put her innovative insurance product ideas into reality.

Career highlights

- Built a brand new team from scratch with various functions established, e.g., business development, training and sales support, to support the business expansion plan and ensure the action plan can be implemented smoothly to drive business result.
- Launched series of star products that contributed 80% of the new business. Strong in implementing ad-hoc strategic project that support business growth and portfolio diversification.
- Challenged status quo and successfully saved £200K development cost by merging the B2B new business application platform with the B2C ones by adopting innovative practice.

Bio

Graeme is an experienced banker and business professional with an extensive track record in end-to-end transaction management, transaction structuring, and negotiations.

Mr. Wallis began his career working for one of Canada's largest chartered financial institutions, where he was involved in the structuring, origination, and management of over \$12Bn in financings to support a number of transformational business transactions across a range of industries from Proptech to Industrials.

Prior to attending the London School of Business, Graeme was a Principal and key partner at a boutique capital advisory firm in Vancouver Canada, providing strategic guidance to C-level executives on mission critical M&A activity, and other corporate development initiatives. As a key partner, he helped to define the firm's value proposition, market positioning, and sales strategy. This resulted in the rapid growth of a sales pipeline consisting of high quality, mid-market and small cap client engagements.

In addition to his studies at the London Business School, Graeme is currently involved in two active business projects. He is also regularly involved in campus society, and is an active member of the LBS Cycling Club.

Career highlights

- Developed, trained, coached and mentored a high performing banking team, providing market coverage to a range of corporate clients across Canada and the Mid-West United States.
- Created and led a multi-year client facing sales and coverage strategy for a large cap industrials company. That resulted in securing an engagement to support a multi-billion dollar merger, financing, and integration of two multi-national US based firms.
- Having the opportunity to spend a year studying at London Business School, amongst an excellent peer group of Sloan Fellowship Candidates.

CEO | NED | Independent
Consultant

Bio

A senior executive and former Area Director for East Asia at British American Tobacco (BAT), where he enjoyed a diversity of multinational leadership roles over a 24-year period.

After completing his Masters degree in Business and Technology, his career started at Procter & Gamble in 1991 where he gained a breadth of exposure to international trade before joining BAT in 1995. Having transformed performance and repositioned branding in Venezuela, Ukraine, and Bangladesh, Jean-Jacques relocated to Europe in 2002 as Global Head of Brands.

In 2004, he transitioned from London HQ to Turkey as Marketing and Sales Director for a start-up division, where he grew volumes by 500% and quadrupled market share within one year. Based on this success, Jean-Jacques was promoted to direct Middle East and Caucasus Marketing and Sales operations across 16 countries in 2007, and then to General Manager for Iberia in 2008. Here, he embedded vertical pricing, streamlined systems and cut costs, resulting in profits for the first time in 20 years.

In 2011, Jean-Jacques moved to Indonesia as Group Chief Marketing Officer and brought stability and clarity to the brand portfolio, as well as increasing brand distribution from 17% to 80% in 18 months. Most recently, he oversaw operations for Vietnam, Philippines, Cambodia and Indochina Duty-Free retail as Area Director, where he reversed declining market trends and grew area profits by 120%.

Jean-Jacques is passionate about transforming and growing businesses. He has a proven track record of sustainably turning around ailing companies and start-ups, along with wide exposure to developing and emerging markets across several continents. People are at the core of a flourishing business and he has left a strong legacy of leaders in the organisations he has led.

Career highlights

- Turned around the Turkish BU of BAT, growing sales volumes fivefold by overhauling the marketing and pricing strategy and improving organisational effectiveness.
- Turned around the Indonesian BU of BAT by redefining corporate strategy, redesigning the brand portfolio, and quadrupling distribution by setting up a sales force of 3000+ people.
- Negotiated a \$675mn acquisition of the second largest tobacco manufacturer in the Philippines.

CFO/COO

Bio

Hakim is an experienced senior finance leader and a trusted advisor. He has been in financial services for over 18 years and trained with two of the Big Four of international audit firms. His initial exposure in Audit and Assurance was with the Kuala Lumpur office before seconded to the London office. This has given him a breadth and depth of different geographies, sectors, and industries.

The transition to the banking industry took place with a challenger bank in the retail banking space. He played a crucial role in building solid teams, providing practical and efficient accounting solutions for treasury and savings products, and preparing the Bank for the Initial Public Offering (IPO) process. He had proven tracked records for delivering various successful finance projects ranging from system implementations such as regulatory reporting, hedge accounting, treasury management system, and general ledger system; to more strategic projects such as IFRS conversion, IPO, debt issuance, and securitisation. Following a successful IPO in 2015, he also facilitated the £1.3b takeovers by a South African bank in 2018.

He subsequently moved to a private bank. His responsibilities were mainly on the production of management reporting, managing budgeting, and the 5-Year Plan process. In addition, his scope also covered the delivery of an Internal Liquidity Adequacy Assessment Plan (ILAAP) and enhancing the stress testing capabilities, including the analysis that fed the Internal Capital Adequacy Assessment Plan (ICAAP). These processes required interaction with a diverse range of stakeholders and managing multiple overlapping deadlines.

Hakim enjoys solving complex and challenging problems and at his best when the organisation's culture promotes inclusiveness. He is keen to make a positive impact in the organisation he works with.

Career highlights

- Led Treasury accounting and contributed to IFRS conversion project from UK GAAP, as part of IPO exercise which raised £226mil. In addition, provided technical support for other £75m Additional Tier 1, £100m Tier 2 capital and RMBS of £333m.
- Responsible for the ILAAP and stress testing for Recovery Plan and ICAAP. Introduced additional shocked analysis, which has increased the bank's agility under stressed scenarios and contribute to the identification of P&L opportunities circa £10m.
- In partnership with QRM, developed and delivered macro and micro hedge accounting solution and protected the Bank's P&L from the volatility of the derivatives with an efficient and seamless solution.
