

Sloan 2023

TALENT DIRECTORY

London
Business
School

From the Dean

It is my pleasure to introduce an outstanding group of global leaders: the London Business School, Sloan Class of 2023.

With an average of 19 years' leadership experience, these Sloan Fellows form our School's most seasoned cohort. Their professional experience – gained within corporations, as entrepreneurs and in the public sector – spans a diverse range of industries. Together, they represent 26 nationalities and have a proven a remarkable record of professional accomplishment.

Created in the 1930's as the world's first executive-level degree in leadership and strategy, the Sloan Masters is now the pre-eminent full-time qualification for experienced leaders. It is offered by only three prestigious business schools globally: London Business School, Stanford Graduate School of Business and MIT Sloan School of Management. The programme provides an intensive, highly personalised, 12-month learning journey focused around leadership, strategy and general management. Our Sloan Fellows' outstanding breadth and diversity of experiences and their interactions with faculty create a unique and dynamic learning environment that truly embodies the best of LBS.

The individuals that make up our Sloan Class of 2023 are already successful leaders, having had a profound impact on the way the world does business and the way business impacts the world. In choosing to join our community, they have demonstrated a commitment to life-long learning, anchored in academic research and enriched by the diversity and talent of the LBS network. Their insights and experience enrich us in turn. They are and will continue to be movers and shakers, inspiring excellence and delivering impact in organisations around the world.

At LBS, we feel particularly proud of the students we attract, select and prepare with our Sloan Masters programme.

I look forward to celebrating the success of our 2023 graduates in the years to come.

Onwards,

François Ortalo-Magné

Dean

From the professors

"All of us teaching the Sloan programme know that it is a very special group of people. At London Business School we are used to lively discussions. On the Sloan programme the discussions are even more lively because participants bring such a wealth of experience from all over the world and insights from years of working in environments ranging from sole proprietors to multinational giants and not-for-profits. The Sloan is not just another degree programme. It is a remarkable group of people determined to make a change at an important moment in their lives and to make a difference by their contributions in doing so. I am proud to contribute to their journey."

Sir Andrew Likierman

Professor of Management Practice in Accounting
Former Dean at London Business School

"The Sloans are my favourite group to teach because they are both experienced and curious, ready for the next chapter of their careers. They're in transition and open to playing with a whole range of possibilities for who they might become. That makes for very interesting class discussions. There is never a dull moment with this group."

Herminia Ibarra

Charles Handy Chair in Organisational Behaviour
Professor of Organisational Behaviour
Chair, Organisational Behaviour Faculty

"I have been teaching on the Sloan programme for the last 10 years, and the participants I meet continue to be a source of inspiration. The class is a diverse set of senior executives who have chosen to take some time out of their careers to re-evaluate, continue with lifelong learning and reposition themselves for the next phase of their careers. I teach the core strategy concepts in the first term, which can be a shock to the system for those who have been out of the classroom for 20+ years, but by the end of the term, there is always a transformation in the way they absorb the new concepts and apply them to their own expertise."

Jessica Spungin

Adjunct Professor of Strategy and Entrepreneurship

"I always look forward to my teaching sessions with the Sloan program. They combine experience and knowledge with an open mindedness and enthusiasm to grow and develop. As careers lengthen and the desire to do something special and make a difference becomes stronger the Sloan Fellowship is increasingly coming into its own. Bringing together experienced professionals from around the world and drawn from different sectors it forges a group who want to embark on the next and defining stage of their career. Its an attitude that makes them a pleasure to spend time with."

Bio

Adaptable and dependable professional with excellent interpersonal and time management skills, ability to work in teams and communicate effectively. Practical experience in the mining industry, and consulting and advising public and private organizations within the sector in various Latin American countries. Extensive know-how in the banking sector and academia, having lectured on topics such as mineral economics, international trade, and competitiveness.

With constant focus on up-skilling and tackling challenges in new roles, completed diverse postgraduate studies from renowned institutions in The United Kingdom, Australia, and Chile. Key areas of learning were leadership, project evaluation, and financial management.

With a keen interest to contribute to the public discussion surrounding the extractive industry's most pressing issues and opportunities in the medium and long term, authored book "Chile, Mining in The 21st Century" in 2017. The book deals with climate change and energy critical elements, and has garnered exceptional reviews from experts of the industry.

Career highlights

- Analyzed investment projects over US\$ 500 million for the Pacific Mining Company. Evaluated potential acquisitions worth around US\$ 2 billion, including detailed assessments of market capitalization, assets, and financial data.
- Advised public and private organizations on mining policy goals and business development, including the Chilean Copper Commission, the Center for Copper and Mining Studies, and the Namibian embassy for South America.
- Co-founder of MIINt (Intelligent Mining), a startup initially focused on strengthening a capital market for local medium-sized mining. Over time, it pivoted to a focus on developing cutting-edge technology tailored to the mining industry.

Bio

With two decades of experience from family-run businesses & startups to Government bodies & large multinationals, Neil's background in the maritime, industrial, tech & education industries has mapped diverse geographies, demonstrating a robust career path. His key insights around Maritime Operations, Business Development, New Ventures, Change & Digital Transformation have enabled him to leverage his creative & ambidextrous leadership skills to impact businesses.

Sailing internationally with multicultural teams early on in his career, often under extreme conditions, laid the foundations for his resilience while navigating adversities. His diverse experiences have helped to learn the art of unlearning and managing change during uncertainties, whether in a ship's engine room, implementing new technologies or reporting to C-suite executives to transform sales and marketing functions.

His passion for helping professionals motivated him to launch Indo Pacific Marine Services, a marine skills development venture in New Zealand. Over the seven years he ran the venture, Neil collaborated with C-suite partners, government agencies and institutions to upskill over 1000 marine professionals and counselled 5000+ students.

Intrigued about self-actualization, he actively draws inspiration from Gardner's Multiple Intelligence Theory and Vedic astrology research to coach true inner potential.

As the race to decarbonize the maritime industry is now underway, Neil is currently developing a climate tech venture focused on reducing Greenhouse gas emissions from merchant ships.

Career highlights

- Instituted an exclusive marine skills development venture with New Zealand training providers and drove revenue greater than USD 8M by recruiting 1000+ maritime professionals.
- Spearheaded organizational change & digital transformation in traditional family businesses balancing democratic with autocratic practices & acting as a catalyst of behavioural change across senior management teams.
- Managed several crises in international marine operations leading multicultural teams, including an intricate takeover as Owner's Representative of a large merchant ship from Mitsui O.S.K. Lines, Japan.

Bio

Fatima is a driven and results-oriented professional with over 15 years of experience in project management, government services, and entrepreneurship development. Having obtained a Bachelor's degree in Business Administration with a major in Finance and Banking, and an LBS Sloan Master's in Leadership and Strategy, she has consistently demonstrated a strong aptitude for strategic thinking, problem-solving, and effective leadership.

With a proven track record of success and a commitment to excellence, Fatima is confident in her ability to excel in any challenging environment and contribute to the growth of organizations and communities she serves.

Career highlights

- As a Senior Project Manager at the Abu Dhabi Executive Office, Fatima has successfully developed and implemented projects aimed at improving the quality of life, happiness, and livability in the Abu Dhabi Emirate.
- Fatima has also been involved in government services quality measurements. Her expertise in this area has contributed to the enhancement of public service delivery, ensuring that the needs and expectations of residents are met efficiently and effectively.
- In her previous positions at the Khalifa Fund for Enterprise Development, Fatima guided numerous aspiring entrepreneurs, providing them with valuable advice and support that enabled them to establish and grow their businesses.

Bio

Authentic leader with a passion for driving innovation and new ventures in established companies. Trusted member of leadership team with track record of delivering human-centric solutions that unlock new sources of value, redefine customer experience and help people lead happier and healthier lives.

With an academic background in Robotics and Artificial Intelligence, combined with two business degrees from the University of Warwick and London Business School, George brings a rare combination of technical expertise and business acumen to the table.

Throughout his 17+ year career at Jaguar Land Rover and Johnson & Johnson, George has gained cross-functional exposure across product marketing, sales, digital, market access, strategy, change, and program management. His experience spans both the automotive and healthcare sectors, with a particular focus on driving transformative change in emerging markets.

An articulate communicator and skilled change leader, George has a natural ability to set vision, interact effectively with people of diverse cultures and backgrounds and lead teams through change. As a director of innovation and new ventures George has helped Johnson & Johnson to imagine, build, and scale a new innovation arm to deliver cutting-edge healthcare solutions while also developing the critical internal capabilities required for accelerating long-term growth.

George is a One Young World ambassador and has led multiple pro-bono consulting assignments with NGOs to drive positive change.

Career highlights

- Established innovation unit from the ground-up to drive continuous transformation. Designed corporate innovation strategy, launched internal accelerator. Built new partnership ecosystem and pipeline of digital services valued at \$100 million.
- Led development of new business strategy for pharmaceutical business of Johnson & Johnson in Russia & CIS cluster. Enabled 18.3% annual growth during 2016–2021 and launched the company to #1 pharmaceutical company in prescription market.
- Designed and implemented multiple go-to-market strategies, healthcare solutions and innovative affordability programs in public and private sectors. Enabled unique cross-industry partnerships and expanded access to innovative care for over 1500 patients.

Filipe is a seasoned executive with over a decade of experience leading teams in both public and private organizations, he thrives in high-pressure environments with complex challenges.

In his most recent role Filipe was CEO of a 1,200-employee institution with a budget of US\$100 million. He successfully spearheaded the transformation and digitalization of an outdated social aid scheme, during the pandemic, serving over 120,000 customers.

His background is rooted in addressing social challenges ubiquitous across industries. He brings a deep understanding of modern societies' complexities and a track record of team management that empowers his colleagues to exceed expectations.

Filipe is looking to apply his extensive knowledge and experience to add value to private companies. By leveraging his exceptional leadership and social impact expertise, he can help organizations navigate sustainability challenges and achieve ambitious goals via executive and non-executive roles.

Career highlights

- Created a new public venture capital for social innovation focused on solving complex public challenges, open to the academia, private sector, and NGOs. Between 2018-21, there were +40 pilot projects developed and executed to improve public policies.
- Recognized by Microsoft for the use of AI virtual assistant, introduced in our virtual contacts during the Covid-19 pandemic. Built a new virtual community of +40,000 entrepreneurs to train and connect them—high user net satisfaction: NPS 66.7%.
- Turnaround of the Fundraising Area of the major NGO in Chile, Hogar de Cristo. Defined the new strategy for fundraising through a bottom-up process, tripling the net income from 2% to 6.5%.

Bio

An engineer with 12+ years of experience working on projects in diversified industries and segments, ranging from strategic planning, preparing business plans to implementing organizational systems. With critical thinking and problem-solving skills that I acquired as a consultant, I learned how to build bridges between teams, translating the executives' vision into tangible action plans, and delivering results.

I'm passionate about building things from scratch and entrepreneurship: In 2011, after winning a Startup Weekend prize, I led the development of a marketplace booking system focussed on beauty salon services. The solution was successfully implemented in three salons in Rio de Janeiro.

In my last role at VTEX, I was an active member of the leadership team that led the company on a hyper-growth trajectory. I led the disruption of HR function – from being detached from the business to being an active ally in the decision-making process. We thrived in influencing the business and promoted collaboration without creating an operational arm. Now as Chief of Staff, I manage CTO's workload by foreseeing and resolving issues, and advising on crucial decisions. I also work actively on the planning and execution of strategic projects, such as Tech Strategic Planning and Budgeting exercise.

Career highlights

- Reformulated People Operations team successfully raising the performance of the established level of service with Workday implementation, minimized labor risk, and reducing cost of operation with an estimated savings of +USD2MM in one year.
- As Director of People Operations, I lead a 35+ team, overseeing \$6MM+ monthly global payrolls and HR processes for 1700+ employees across 17 countries. Alongside with the CFO, I conducted the HR component of our NYSE IPO.
- I established and directed the Talent Acquisition department, scaling the company from 370 to 1200+ employees. I instituted a robust hiring process, tools and culture, with a high connection to the business.

Bio

Hirachand is a senior business leader with over 35-years of experience in sales , marketing, the syndication of television programs and the distribution of films accross theaters. He has driven digital transformation within the media and entertainment sector, across offline and online media platforms.

Having led multiple companies Hirachand has managed multiple stakeholders and accelerated revenue growth, across digital and electronic media. He has an entrepreneurial mindset focusing on learning, innovation, emerging trends, consumer behavior and attention to detail.

Hirachand is calm and composed under pressure, thinks laterally and finds innovative ways to solve complex problems. His approach to business incorporates a combination of logic, experience and instinct.

He has extensive experience in social impact projects focusing on banking and education. He has also held leadership positions as a honorary secretary of the film federation of India (Apex body of film industry of India) and President of the Indian Film Exporters Association.

Career highlights

- Founded movie distribution company - Madhu Entertainment, distributing more than 1000 Indian feature films within international cinemas, television & digital media.
- Co-founded Indian satellite channel ISHWAR, led advertising sales and grew viewership to 10 million.
- Ex-chairman of Mumbai based urban bank - Shree Arihant Co-operative Bank Ltd having 11 branches and more than 125 employees.

Bio

Omowale is a passionate, fearless and trusted business leader. As a people developer she has a track record of successfully leading large teams, projects and country operations to deliver business results. With a career that spans serving on the Executive Team of three global companies as well as founding and scaling her own company, she combines execution-focus with social intelligence.

As Group Managing Director (Nigeria), NewGlobe Education, Omowale was responsible for ensuring millions of children in sub-Saharan Africa received life-changing education. Through multi-year technical partnerships with state governments she managed and transformed their public schools into globally competitive ones.

Previously as Vice President, Global Operations at Andela (a tech start-up), she centralized a distributed team to provide an effective work environment for a fully remote workforce of 1000+ engineers across six countries. Prior to that as Country Director (Nigeria and Ghana) she managed circa 800 employees, delivering software engineering services to clients worldwide.

Omowale founded and managed Strictly Babes Ltd (SBL) where she conceptualised, established, and scaled the first maternity-only retailer in Nigeria. She still acts as a Non-Executive Director.

She was an Executive (Senior Manager) at Accenture, where for eleven years she led complex and challenging projects for strategic clients in both the public and private sectors of Nigeria. She also, temporarily, acted as Head of Human Resources in addition to her consulting responsibilities.

Career highlights

- Drove market expansion of NewGlobe within 18months by supervising and collaborating with the partnerships team to add and renew State Programmes. This culminated in educating almost 1 million children in Nigerian public primary and secondary schools.
- In Andela, converted decentralised operations to a centralised model, leading to a significant reduction in operating expenses. Concurrently handled the transition and stabilisation of a workforce of 1000+ Engineers to fully remote operations across 5 countries.
- Doubled revenue of maternity retail company (SBL) by 2nd year, launching own-label products within the same period, winning a highly competitive national grant and scaling from a start-up to a multi-store brand.

Gaurav is a seasoned investment professional and leader with extensive experience in distressed asset investing and corporate turnarounds. He has a proven track record of leading teams, executing active turnarounds, and achieving high-return exits. Gaurav specialises in deal origination, investments, business strategy, and litigation strategies.

Colleagues recognize Gaurav for his excellent problem-solving skills and calm demeanour during stressful turnaround situations and negotiations. His collaborative leadership style has helped foster a strong team and a culture of high performance and empathy.

Gaurav has gained extensive multi-sector exposure, including consumer goods, pharmaceuticals, real estate, infrastructure, and technology. His strong research background and people skills have contributed to creating significant value not only for Blackstone's fund but also for its portfolio companies.

As an investor and strategist, Gaurav has witnessed the positive social impact of business turnarounds, such as job creation, efficient resource redeployment, and the stabilisation of credit cycles in the economy. He is actively focusing on ESG principles to make a meaningful contribution to businesses and drive positive social and environmental change.

Career highlights

- Led investments in rescue capital, bankruptcy resolution and liquidations, with a deep value orientation. Credited with the first successful revival plan for a stalled road project under India's new Insolvency Code, which gained approval from the bankruptcy court.
- Invested and managed Blackstone Tactical Opportunities drop-down fund, invested AUM ~ USD 240MM.
- Member of IARC Management Committee; Chaired creditor steering and monitoring committees
- Created a debt vertical team for identifying debt capital and structured credit opportunities

Bio

Prior to the Sloan programme, Patience had 26 years' experience, 16 of which were in the C-Suite of a large Zimbabwean pension fund. During her tenure with the pension fund, she mastered the art of prudently managing and preserving other people's funds in a turbulent economic environment. Her experience spans financial reporting, financial management, treasury investments, real estate investments, equity, and bond markets investments as well as risk management and strategic management.

As CEO of NRZCPF, she has managed assets of over USD400m, 30% of which are held in the UK. Thus, her experience spans both Zimbabwean and UK financial markets. She has successfully led teams and projects implementing NRZCPF's digitization, setting up a Real estate investment trust and utilizing the Fund's real estate portfolio to generate solar energy from rooftop systems.

Patience's greatest achievement was the ability to influence policies at macro level that facilitated the reinstatement of members' pension savings which were wiped out by two separate periods of hyperinflation in two decades.

Post Sloan, Patience is looking to catapult her career to the broader global market by leveraging her experience in financial services and particularly her high conscientiousness in managing other people's funds.

Career highlights

- Managed a +USD400m pension fund and preserved its assets through hyperinflationary periods in Zimbabwe. Being the only pension fund in Zimbabwe to consistently pay benefits in a timely manner as well as restoration of pension values.
- Established the first Real Estate Investment Trust in Zimbabwe in 2021 with seed capital of USD20m.
- Established the first rooftop solar project in Zimbabwe with capacity of 10MW and cost at USD10m in 2022.

Bio

Tomas is an accomplished and innovative leader with significant achievements in various industries, including entrepreneurship, big corporate management, and government.

As the former Minister of Health in the Slovak Republic, Tomas made substantial progress in the healthcare sector through innovative programs and initiatives as evaluated by the EU Commission. During the EU presidency in 2016, Tomas Drucker served as the Chairman of the Council of EU (EPSCO).

In his role as Chairman and CEO of Slovak Post, he led a turnaround through a transformative change management program, revolutionizing the organization and earning recognition as "The Most Respected CEO in Slovakia" by Forbes and PwC in 2016.

With a Master of Science in Applied Informatics and a Master of Law, Drucker's skills and varied experience have allowed him to make meaningful contributions across different industries.

"Throughout my career, I've been fortunate enough to work in both private and public sectors, obtaining valuable experience as a consultant, CEO, and Minister of Health. This journey has emphasized the vital role of powerful leaders in driving transformation within business and public policies. My diverse roles, including entrepreneurship in business consulting, leading a major company as CEO, and serving as Minister, have equipped me with essential transferable skills that are highly applicable in other domains".

Career highlights

- Tomas spearheaded a healthcare change management program. He implemented eHealth, first DRG, and a new drug categorization system. Additionally, he committed to the Value for Money project, effectively reducing healthcare costs and increasing value.
- He successfully led a transformative change management program at Slovak Post, turning it into a multifaceted service provider. He guided 14,000 employees across 1,500 branches to effectively execute turnaround program.
- He founded a consulting company in Central Europe. He participated in the merger of health insurance companies in Slovakia, the implementation of the euro currency, the optimization of different companies in various industries and other projects.

Bio

Anupinder has had an exceptional military career spanning two decades across four continents. He has repeatedly set new benchmarks of performance and achievement in a diverse range of military activities and skills including weapons technology, combat vehicles, management, leadership, training and development, supply chain & logistics and commando skills. He is a certified trainer on seven military domains, with a distinction in two.

He has commanded teams ranging from 5 to 800 persons and delivered results in challenging operational and leadership scenarios across the globe. During the three years of his exceptional command of an armoured infantry battalion, his team garnered more honours and awards than they had in the 37 years since they were founded. Anupinder's team was also selected to be part of the Indian Army's United Nations Contingent in South Sudan.

In his last role as the Director of Strategy & Operations at a Corps Headquarter, with 45,000 troops under command, he prepared a blueprint for force restructuring which has been adopted for pan Army implementation. Using his exceptional stakeholder management skills, he was able to secure 650% additional for developing critical military infrastructure in extremely rugged terrain along the International Border. He even conceived a novel model of civil-military cooperation for construction of military infrastructure in remote mountainous areas along the international borders and implemented the pilot project by involving stakeholders from civilian organisations, military units and government agencies.

A well rounded personality, Anupinder has a keen interest in sports, travelling, music and motorcycling. He has travelled to over 25 countries, has played five sports at a competitive level on the Army circuit and plays various musical instruments.

He is open to Geographical relocation.

Career highlights

- Led Indian Army delegation on a deployment along with the Indian Navy to Vietnam. Selected to be a United Nations Peacekeeper in the Democratic Republic of Congo from 2007 to 2008.
- Selected, following a competitive process involving over 1,500 officers, to represent the Indian Army at the Defence Academy of the UK and attend the Advanced Command and Staff Course (ACSC) from 2013-2014 alongside military professionals from c. 50 countries.
- For his exceptional performance in designing & delivering training to military professionals from 6 countries, he was awarded a Commendation by the General-Officer-Commanding-in-Chief of the Western Army Command, India.

Bio

Over the course of his career, Joseph achieved a diverse set of accomplishments in Government, Financial Services and Professional Services.

He commenced his career in Government as Special Adviser for Budget & Economic Planning responsible for providing expert advice on the formulation and execution of socio-economic policies and plans to deliver sustainable and inclusive growth. He coordinated the budgeting process for the State Government and its Local Government Councils. He was subsequently appointed Commissioner for Finance, responsible for fiscal policy management, treasury and investment management (including infrastructure project development/finance), process and systems integrity, and financial reporting. During his tenure as Commissioner, he served as member of Nigeria's National Economic Council (NEC), and the Federation Account Allocation Committee (FAAC).

Before his appointment at Edo State Government, Joseph entered a strategic management contract with Bankers Warehouse Plc., where he functioned as head of Strategy & Enterprise Development (Bankers Warehouse are the foremost Cash Logistics company in Nigeria licensed by the CBN to render physical currency management services). He had primary responsibility for coordinating planning & plan implementation, corporate performance management, business expansion and strategic marketing.

Joseph led the West Africa consulting practice of Deloitte (with country operations in Nigeria, Ghana and Gambia). In this role, he had full responsibility for developing and implementing strategic plans covering: solutions and services, client retention and clientele growth, people and talent management, P&L management, and practice risk management.

Career highlights

- Spent 12 years in senior management roles at Deloitte (including 8 years as Partner). Led a multinational and multicultural team, delivering advisory services to clients in the UK and across West Africa.
- Led the Ministry of Finance (Edo State Govt. Nigeria), for 4 years and provided quality leadership to a team of economists and accountants. Together, we fostered a stable macroeconomic environment and attained fiscal policy targets for productivity, GDP and employment growth.
- Handled extensive funding negotiations with executive level officers in leading National and International Development Finance Institutions (including the World Bank and Central Bank of Nigeria).

Bio

Eran is a seasoned C-level executive with a robust eighteen-year career in strategic management, leadership, and analytics.

His professional journey began on the global sports stage, where he proudly served as the Youth National Coach at the 1st Youth Olympic Games and various European championships, forming a solid foundation for his later leadership roles.

Throughout his career, Eran has been at the forefront of numerous transformative initiatives, utilizing sports and culture as a powerful engine to inspire the youth, unify communities, and address societal issues such as inequality, violence and racism.

His distinctive approach, marked by fostering innovative and sustainable collaborations, has proven successful across diverse sectors that span the private, public, and non-profit organizations.

Eran's multifaceted skill-set converged when he took the lead in launching the first Sports Fund for Youth in Israel, which provided social, emotional and financial support to organizations during the significant upheaval caused by the covid-19 crisis.

Eran's strategic acumen honed from experiences ranging from coaching at elite talent levels, consulting, serving as CEO and government Chief of Staff, has fostered a unique leadership style. This distinctive approach empowers him to adeptly navigate complex challenges and engage diverse stakeholders, including state leaders, government ministries, and top executives of major corporations.

Career highlights

- As Chief Of Staff of the Ministry of Culture and Sports, implemented the government agenda and strategic planning processes for the US\$600m budget of the ministry. Successfully managed the strategy during volatile situations.
- As CEO, transformed Value Sport from a small, local non-profit into a strong leading government organization in sport and education in Israel, impacting 3,000 coaches, 100,000 youth, pro sports teams, and national governance.
- Worked closely with the President of Israel to establish and award the Shield of Honor initiative; presented to organizations that excelled in educational values and effectively addressed violence and racism.

Bio

Farakh carries over 23 years of global experience in investments, finance, governance and operations across a varied cross section of industries including private equity, HNW family offices, asset management, telecoms, real estate, construction, manufacturing and Big-4. He has built an extensive track record in the areas of mergers & acquisitions, value analysis of business plans & corporate strategies and management of financial functions for \$250m+ budget entities.

In his last role for 3 years, Farakh was Group CFO for Capital Tap Holding, an asset management firm, and was responsible for overseeing investments with a combined portfolio of over \$1.2 billion. He led the corporate finance, strategy, acquisitions, investment management and governance functions of the subsidiaries, trade investments, partnerships and joint ventures in GCC, Sub Sahara Africa, Europe and Far East across multiple sectors such as mineral concessions, mining, banks, fintech, trading and industrial agriculture.

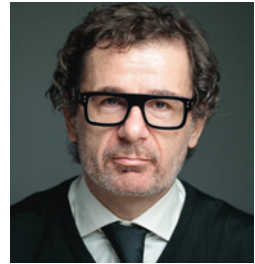

Previously, Farakh was headhunted by HavenVest Private Equity [formerly HSBC Private Equity ME], a DIFC – UAE regulated operator of 3 PE funds with committed capital of \$700m, to serve as the CFO of its 3 portfolio investments in the manufacturing and construction trading industries. For over 3 years in this role, he was responsible for 50 staff across finance, procurement and treasury functions and served as a 'turn around advisor' with direct reporting to the PE Board.

Career highlights

- Member of executive committee that led successful negotiations with North Africa's largest investment group on a mineral exploration concession joint venture carrying an investment ticket size of \$120m.
- Advised on a \$40m acquisition of the largest center-pivot irrigated agriculture farm in East Africa (87,000 hectares). Led the post-acquisition business planning and Capex fund management of over \$60m.
- Established a robust financial due diligence and investment appraisal process to evaluate c. 80 deals/investments across a number of industry sectors to include seaports, marine cargo vessels, mobile operations, submarine data cables, regional airlines and oil fields.

Bio

As a business executive with over twenty years of experience in Asset Management, Momo has learned that experience, education and permanent commitment to learning are crucial to success. Over the past 20 years he has been CEO and owner of several international asset management companies.

Momo has a proven track record in industry - occupying dual roles as a CEO and Head of Investment Management, he is responsible for the implementation of investment policy and strategy.

With international experience and local expert knowledge, he brings a different perspective in terms of leadership and investment management to the organization and beyond. Furthermore, he understands how to get people to do their best work – he knows that high motivation leads to better corporate performance.

During his career, Momo has participated in a plethora of international conferences and seminars. He has also served as a panelist in economic forums and given interviews for multiple media outlets.

Outside of work, Momo is passionate about sports especially tennis, basketball and fitness. In his younger days, he played basketball and tennis semi-professionally. Playing at a competitive level taught Momo discipline and dedication, which are two of his greatest strengths. He still practices tennis, participating in international ITF events.

Momo has great appreciation for performance arts, particularly theatre and movies. He also enjoys reading and travel to new places. He loves adventure and spends time mountain climbing with family and friends in his spare time.

Momo is from Montenegro, but a resident of Spain. He is married and has two children.

Career highlights

- Led the execution of investment opportunities and the evaluation of business models. This included monitoring portfolio performance, fluctuation of assets and risk management.
- Oversaw international banking operations and has been instrumental to several successful corporate turnarounds.
- Received government and company scholarships in the pursuit of professional development.

Bio

Suyun is a global leader with stellar transformational expertise in
General Management, Strategy & Operations, Finance, and R&D.

Trained as an EE/Telecom engineer, she embarked on her career
journey working for companies like Nokia, Aclatel-Lucent, and Apple.

Throughout her 14 years of broad international experience, she
has held diversified roles and built her track record as business
strategy consultant, deputy general manager, and other functional
and technical leading roles across China, the US, the EU (Finland &
Switzerland), and the UK. Driven by her strong passion for finance, she
attained all three levels of CFA continuously in 2.5 years.

Suyun is highly skilled in strategy design, implementation, financial
analysis, business planning, and performance management. The
rigorous training she received from two elite business schools (IMD
& LBS), compounded by her rich multi-function/sector experience,
formed her well-rounded general management profile.

As a strategist, she advised the corporate executives (Philip Morris
International Swiss Headquarter) on business strategy design,
deployment, and pilot & governance, focusing on top/bottom line,
change management, and innovation. As project director, she took
a start-up's deputy general manager role, setting the company and
team on a good path for growth acceleration.

She is a high-energy, inspiring leader; a curious, firm lifelong learner.
With her interpersonal and stakeholder mgmt. savvy, she drives &
delivers result in fast-paced cross-cultural, cross-org, complex MNC.

Career highlights

- Individually/jointly delivered: \$2-3M cost-saving potential, company-
level operating model transformation (Integrated Business Planning),
30% innovation TTM (time-to-market) reduction.
- With COO, co-managed national sales team of 40 to higher B2B
performance (\$15M annul turnover). Led B2C new product NPI and
commercialisation. Achieved a successful GTM launch (Tmall.com
debut exceeded sales target by 50%).
- Built two departments (QA & PM) from scratch to 12; brought down
monthly defect rate from 20+% to standard industrial level of 3% in
less than one year. Won the innovation team award (2015) at Apple

Bio

Daekyo In is a results-driven professional with over 15 years of experience in construction safety, facilities management, and project management, delivering successful projects on time and within budget. He worked for General Motors in various roles, including Facilities Analyst, Construction Project Manager, and Facility Safety regional manager. While working at General Motors, he led five major construction projects and established safety goals for the region. He was also involved in managing focus groups for facilities in Asia and Africa, achieving a 20% reduction in workplace accidents and injuries by implementing new safety procedures and conducting regular safety audits, especially in China and India.

After leaving General Motors, he served as a Construction Safety Specialist at the Korea Occupational Safety and Health Agency, where he audited construction sites, provided consulting solutions to eliminate risks, and reported violations for the judicial process.

His career started from scratch. In his early 20s, he worked as an assistant foreman for many building constructions in the Seoul area for a year. He pursued every facilities management job and construction work in one of the Korea Air Force bases for three years. After the military, he worked on a 1,118-house condominium project for a year.

In addition to his professional experience, he has five years of amateur boxing experience. In the Republic of Korea Air Force, he served as a senior missile power supplier and captain soldier of the troop, leading 200 soldiers.

Career highlights

- As a Korea government auditor, monitored and consulted the equivalent of \$ 10 billion of construction projects on safety regulations and best practices.
- Led an organization-wide initiative that resulted in a 30% decrease in workplace accidents and injuries, particularly in the operations of GM China and India.
- Led 5 construction projects under GM. Total budget of \$50 million. Completion with 20% of the reduction of the periods and budgets. Worked for due diligence of Green Field projects in GM China, Uzbekistan, India.

With over 15 years experience spanning Oil and Gas, Social Impact, and Renewable energy, Ibimina holds expertise in energy, sustainability and ESG domains. She has directly managed oil and gas operations and delivered large scale well exploration to production projects globally across multiple regions including North America, Europe, Middle East, and Sub-Saharan Africa.

Ibimina began her career at Schlumberger where she held various oilfield services operating roles, including Well Placement Domain lead across Schlumberger's NGA Geomarket countries. Latterly at Afren Plc, a FTSE 250 company, as Lead Development Geologist, she had wide ranging responsibilities including strategic development, delivery, and commercialization of oil production wells; oversight of annual budget of c\$180m, achieving efficiencies and project delivery.

She then served as founding member and COO of Canon Education, a social enterprise venture delivering ESG objectives of scaling STEM education outcomes for low-income students. Most recently, as director at Energicity Corp, a pioneering, female founded, late -stage renewable energy developer in Africa, she led strategic and operational growth initiatives with transformational impact across West Africa. In this role, she managed Project Development, Commissioning, Delivery and Operations of scalable Mini-grid renewable energy solutions.

Ibimina holds a BSc in Exploration and Resource Geology from Cardiff University and a Master's of Science in Petroleum Geoscience from Imperial College, London. She seeks to leverage her background and expertise to explore opportunities with a strategic scope within Clean Energy, Energy Transition, and Impact Investment.

Career highlights

- Completed turnaround of Schlumberger WP business unit resulting in client base growth by over 200%, delivering corresponding transition of client's technology from conventional to highly advanced steering technology.
- Successfully delivered complex Oil production and EOR wells with annual budget of c.\$180m achieving \$20m cost savings for which she received a commendation from senior leadership.
- Led operational strategy execution as part of team that established a diversified portfolio of renewable energy assets across West Africa, providing 5000+ sites affordable clean energy; reducing 511 metric tons of CO2 per year, including diesel generators for cell towers.

Junta is a highly qualified and experienced real estate development and investment professional with over twenty years of experience working across Japan, Asia, and the United States. He brings deep real estate expertise with a global perspective and has managed and delivered all types of real estate, including commercial buildings, retail, residential, hospitality, warehouse, and mix-used complexes in real estate venture and assets.

He has led the expansion of an innovative real estate value-add investment fund startup into the Japan market as Country Head, and built a platform, led real estate investment, asset management, and development activities in Japan.

Also, he provides advisory services to a US based luxury boutique life-style hotel operator seeking to enter the Japan market in collaboration with Japanese partners with key responsibilities as an Executive Advisor.

Currently, he is working with a number of startups. He also founded and board member of a non-profit organization in Japan, which focuses on providing a community hub, promoting local community interaction and inclusion across generations, and providing mobility support for seniors in the world's largest ageing society.

Career highlights

- Previously with Mitsubishi Estate(largest real estate developer in Japan), handled responsibility for major business district redevelopment projects, including tenant leasing, repositioning, asset management and property management.
- Sourcing, acquisition, planning, sales & marketing and after-sales service management for 11 luxury residential projects. Established an investment and development company to invest in US\$700 million complex mixed-use developments in Myanmar.
- Project management for Hilton beach resort hotel with 300+ rooms in Japan. Established a regional regeneration investment fund of US\$200 million acting as the General Partner.

Nasir Khan is an Executive Leader with over 20 years of international experience in building, scaling and exiting startups. He has a remarkable track record of success in leveraging his cross industry experience, to bring about exponential growth and out of the box solutions.

Prior to London Business School, Nasir honed his skills by providing expert guidance and overseeing successful endeavours at his own consulting firm. Additionally, he served as the Marketing Director and co-founder of an award-winning online parenting community, demonstrating his entrepreneurial spirit and ability to navigate the digital landscape.

In the telecom sector, Nasir thrived as an entrepreneur and forged a valuable partnership with a factoring house, effectively scaling its book size to an impressive \$1.4 billion in lending assets.

His exceptional business acumen, coupled with his background as a doctor of medicine, fuels his passion for social impact businesses. Nasir has championed women’s empowerment initiatives in developing countries, making a meaningful and lasting impact. His diverse expertise extends across multiple industry segments, where he has consistently driven growth and orchestrated successful turnarounds. Nasir’s outstanding leadership and interpersonal skills are complemented by his unwavering corporate focus and results-driven attitude. He possesses the ability to inspire and lead teams, fostering transparency, sustainability, and improved efficiencies in every endeavour.

Career highlights

- Launched Scaryammi Pakistan’s first ever parenting platform and grew it into the largest ever, female population, digital platform in the country in ONLY 15 months. It has 150,000 households, reaching 1m people and growing by the day.
- Joined a factoring house, re-worked the strategy and grew the book to \$ 1.4 billion over a period of 6 years.
- Scaled Telecom startup to near \$ 100m in annual sale in 3 years.

He is a highly experienced professional with 15 years of experience in leading teams, projects, and businesses across different continents, including LATAM and Asia. He embraces a growth mindset and fosters a culture of continuous learning, collaboration, support, and mutual respect within his multicultural and diverse teams.

During his tenure at RHI Magnesita, Bruno demonstrated grit, resourcefulness, and an exceptional leadership ability to spearhead Joint Ventures, integrate acquisitions, develop new businesses, expand into new markets, and revitalize performance in challenging environments, such as hyper-inflation, political instability, and geopolitical concerns.

Currently, Bruno is focusing on driving the energy transition journey of industries such as Energy, Metals, and Mining. He is actively seeking opportunities to connect with like-minded professionals and organizations that share his vision and values. He takes great pleasure in exchanging insights and experiences with others, as he explores new challenges and learns from diverse perspectives. He is eager to leverage his skills and knowledge to contribute to the global efforts to combat climate change and create a sustainable future.

Career highlights

- As Senior Manager, Bruno was the president of the Taiwanese Joint Venture, led acquisition integration after merger of RHI and Magnesita and delivered outstanding financial results. He defined the growth strategy and expanded the business across APAC.
- As Regional Manager, Bruno formed the regional office and led go-to-market and business development in Southeast Asia, resulting in new customers acquisition and multi-million euros revenues.
- As Sales Country Manager, Bruno turned the unprofitable, stalling Argentinean operation around, revitalized performance and realized the best annual operating results in a decade, despite high inflation in the Argentinean market.

Bio

Meeraj is a technology entrepreneur and engineering leader, currently serving as the CEO of Service Symphony, a technology consultancy firm that he founded. Prior to this role, he held key positions in technology leadership at VocaLink and Electronic Data Systems.

Throughout his career, Meeraj has demonstrated his expertise in entrepreneurship, engineering leadership, and the formulation of technology strategies, particularly in the realm of payments software. He has successfully built and nurtured high-performing teams, overseen payments architecture, and facilitated the delivery of critical and intricate financial infrastructures for renowned clients.

His responsibilities encompass driving technology-driven transformations for clients, spearheading new business development initiatives, executing organizational restructuring, taking ownership of profit and loss, forecasting budgets, managing relationships with senior stakeholders, establishing offshore teams, and overseeing company financial management.

Being an esteemed authority in payments software, Meeraj has provided valuable consultation services to esteemed clients such as Western Union, MasterCard, and VocaLink. He has also authored a number of books on various technology-related topics, contributing significantly to the field. Moreover, he frequently writes and speaks in the payments and technology domain and actively participates in shaping industry standards.

Career highlights

- Holds the position of Chief Technology Officer (CTO) at several technology startups. He leverages his expertise and leadership as a CTO to guide the technological direction and innovation of these startups.
- Spearheaded the re-engineering efforts of crucial UK critical infrastructure projects, specifically BACS and Faster Payments, overseeing their comprehensive transformation.
- Participated in various industry standards bodies, leveraging his expertise to contribute to the validation and ratification of technology standards.

Bio

Roli is a motivated, results-oriented and empathetic leader with 24 years' experience that spans work in Development Aid, Social Initiatives, Public Affairs and Oil & Gas Industry Advocacy in Nigeria. She is a person with optimism, integrity, great interpersonal skills and lucid verbal and written communication skills.

Roli has a proven track record in integrating cross-functional teams, mapping out projects and working with internal and external stakeholders to deliver results. In her most recent role as Communications & Government Relations Manager at Nigeria's Oil and Gas advocacy group, Roli collaborated with CEOs of multinational and indigenous companies operating in Nigeria, government regulators and the diplomatic community, to promote positive reform that supports the long-term health of the industry.

She has also developed and implemented several social initiatives including community development projects in rural communities, capacity-building at tertiary education institutions and arts projects that promote mutual understanding between different cultures.

Roli is passionate about young people. She volunteers with an NGO that prepares 5-25 year-olds for work-readiness by teaching business skills and digital fluency.

She is keen to further explore opportunities in the design and implementation of sustainable initiatives for positive environmental, social and economic change in under-served communities.

Career highlights

- Organised essential meetings between Oil & Gas stakeholders – government, diplomats, industry partners – to ensure the industry's full participation in Nigeria's Petroleum Industry Act (PIA) 2021.
- Developed and implemented Nigerian Agip Oil Company's first electronically-administered overseas post graduate scholarship programme, reducing project time cycle by 30%.
- Led a team to implement a big-ticket project for the supply of state-of-the-art geomatics equipment to 3 Nigerian Universities & technical institutes. This included a train-the-trainers programme for 40 senior lecturers.

Bio

Aleksandr is a Fintech Executive with a unique combination of B2B and B2C experience in the Sales and Marketing departments of multinational blue-chip FMCG companies where he delivered growth and innovation. He launched two Fintech payments businesses from scratch in the last ten years. He has a proven track record of implementing business strategies and innovations by creating new products/services and opening new markets. Aleksandr is excellent at building long-term relationships with customers and the team involved to launch breakthrough projects and provide sustainable business growth.

Aleksandr has an entrepreneurial mindset and a strong drive for results, which allow him to make a difference for companies facing changing environments, looking for a business turnaround, and willing to grow. He is passionate about delivering outstanding results and creating disruptive innovations.

He takes responsibility for the team and results. He is keen to make a positive impact in the organisation he works with and the people around him. People are at the core of a sustainable business, and he has left a strong legacy of leaders in the organisations he worked for.

He is looking for a challenging senior leadership position in a regarded organisation in Tech-sector where his leadership and strategy skills will contribute to driving business growth and positive social impact.

Career highlights

- Established two FinTech b2b-payment companies delivering double-digit growth for nine years: developed go-to-market and sales strategies, incorporated an industrial processing payments platform, created Advisory Board, and managed an EU-holding company.
- Successfully implemented Global Retail Function for three countries in TetraPak: cross-functional cooperation with Sales and Marketing teams, advised top retail and manufacturing stakeholders, over 88% of new private label products used TetraPak solutions.
- Made the local market the best in Europe as part of the work with two global retailers for Gillette and Diageo: developed a networking strategy based on multi-level interaction, doubled the business in three years and delivered 14% growth in the 2009 crisis year.

Bio

Business leader with 16 years of experience in diversified B2B energy segments & working across the global markets (EMEA, North America, South America, APAC, SAARC). I have a proven track record of turning around under-performing businesses, challenging the “status-quo”, generating revenue, scaling them in complex trade environments, while managing culturally and functionally diverse projects and teams.

I have expertise in diesel engines, switchgears, power electronics, clean energy (hydrogen, carbon capture) and heavy machinery business across diversified sectors like oil & gas, energy & mobility sectors

I enjoy working in diversified & challenging environment to help deliver superior results and pioneer in business transformation i.e. Multi-tasker with ability to change direction quickly and in leading through both ambiguity and constant change

I have a passion for innovation and helped the organisation reimagine business models from diesel engine to hydrogen and transform the lives of their customers, partners and employees. Implementing a holistic, structured approach to pilot ways forward through ambiguity, cultivate trust and lead as a “Role Model”.

Career highlights

- Turned around the under-performing business at Cummins Inc by adding export product-line, establishing channel management to gain market share by 15% and delivering a top-line growth of 700% and bottom-line by ~25% within 18 months.
- Driven sustainability consulting by developing business roadmap of transitioning from diesel engines towards electrification by venturing into electric mobility, hydrogen equipment to grow the revenue from \$4M to \$40M from 2021 to 2030.
- Generated \$5M USD cost savings by solving critical business problems like Emission regulation, organizational restructuring, supplier recovery process, GTM & business strategy for market share improvements impacting multiple functional areas spanning across North America, APAC and EMEA.

Real Estate Investment

Bio

Akira Nagao is a senior manager with 15 years of experience and works for Mitsui Fudosan, Japan's leading real estate company. He spent most of his career in Real Estate investment. He also has experience in asset management area working for Japan's largest REIT, a subsidiary of Mitsui Fudosan. He is experienced in investment, fund management, and asset management.

Akira started his career in real estate advisory business where he developed investment opportunities valued over £1 billion involving corporate real estate strategies, relocation of headquarters and consolidation, optimal site utilization, property investment products, and disposal of corporate housing.

As the youngest fund manager of REIT, Akira was responsible for formulating and executing a portfolio strategy for £9 billion. He designed portfolio investment and leasing strategies to enhance the value of all properties.

Working as investment manager, Akira managed investments and disposition, identifying investment opportunities and promoting development projects. His team managed £3 billion in property investments in 4 years.

Akira has excellent negotiation skills demonstrated through many tough negotiations to secure investment opportunities. He has experience leading huge project teams and has the energy and project management skills to drive strong performance within teams. He is also good at building relationships and can quickly establish rapport with key stakeholders inside and outside the organization.

Career highlights

- Dealt with portfolio worth more than £3 billion which involved selling office buildings to investors, acquiring headquarters from traditional Japanese companies, and winning over huge competition for the right to redevelop projects in central Tokyo.
- Succeeded in forming a consortium with 14 domestic and international companies (including governments, academic institutions, and venture capitalists) for a huge development project.
- Developed asset management system of REIT collaborating with an engineering company, systematising daily operations. Other REITs adopted this system, which became one of the industry standards in Japan.

Bio

Timur Naizabekov is an experienced private equity professional from Kazakhstan with 18 years of experience in investment and commercial banking, telecommunications, real estate, asset management, and power generation. He harbours a keen passion for private market investments, geo-politics, and strategy.

In October 2022, he was selected as a Rumsfeld Fellow at the Central Asia and Caucasus Institute, which provided him a unique opportunity to engage with leading US policymakers, think tanks, business leaders, and academics. He has served as a Senior Investment Director at Sigma Capital, a private equity company with c. \$500 million in funds.

From 2018-2022, Timur was a board member on two of the largest telecommunications companies in Kazakhstan, KazakhTelecom and Kcell, where he was involved in making strategic business decisions. He has also served on the board of Central Asian Electric Power Corporation (CAEPCO), a power generating company, as well as a Kazkommerts Securities, Kazakhstan's leading investment bank, from 2016-2021.

Timur has also had a successful tenure as the CEO of Estate Management Company, Kazakhstan's prime real estate management firm with holdings of c. 200,000 sq.m., from 2015-2017. In his early career, from 2007-2014, he has held various positions at the National Bank of Kazakhstan and the National Investment Corporation, where he managed Kazakhstan's foreign exchange reserves and oil fund assets with a combined value of \$90 billion.

Career highlights

- Established the investment team for a boutique Private Equity firm with c.\$500M AUM focussed towards real estate, telecoms and petrochemical sectors in Kazakhstan, Russia and UAE.
- Set up one of Kazakhstan's largest REITs, managed its real estate holdings and realised value from divesting non-core assets of the fund under the ambit of a leading commercial bank.
- Set up a \$2 Bn portfolio of private equity, hedge fund and real estate investments for the Kazakh Sovereign Wealth Fund while working with the National Investment Corporation of Kazakhstan.

Kentaro is a Senior Vice President of Mizuho Financial Group, a Japan-based banking group, with an 18-year career. He specializes in the development of personal financial products and businesses, including personal loans, membership services, and apps. Kentaro has been involved in the personalized business within the company for nearly 15 years, demonstrating a high project implementation capacity.

Kentaro has experience setting up a lending and credit score company called J.Score with Softbank, one of the largest technology and telecommunications companies in Japan. He was seconded to the company after its establishment, where he leveraged his interpersonal and management skills to perform corporate planning, business planning, and service & marketing working with Softbank employees. This experience helped him gain insight into the technology and information industry in addition to finance, refining his abilities and skills like mutual understanding, communication, and leadership with those who have different company cultures.

Kentaro has also developed a unified and sustainable strategy for Mizuho Financial Group and changed awareness in each company by coordinating many stakeholders, not only in specific product development but also company-wide strategy for Mizuho Bank, trust bank, securities company, and their subsidiaries, for individual customers.

Career highlights

- He established J.Score, a fintech company that provided lending and credit scores for individual customers, in collaboration with Softbank. He concurrently worked in various departments, such as Business Planning and Service & Marketing, in this joint venture co.
- Developed a group-wide strategy for Mizuho Bank, Trust Bank, Securities Company, and their affiliated subsidiaries, and coordinated collaboration among their functions to meet the needs of their individual customers.
- Developed and launched new financial products, such as a reverse mortgage loan, a new membership service for wealthy customers, and a new type of housing loan.

Bio

From 2018-2022, served as a COO/CFO of Miotsukushi Analytics, a leading IT Service, Data analytics and AI software development start-up in Japan. Architected the firm's mission, vision, values, and strategies from scratch; defined company's functions and teams; implemented strategic planning and monitoring schemes; executed management strategies. This resulted in corporate expansion from 8 to over 150 employees and a successful M&A exit with a large IT company in 2020.

From 2012-2017, worked for ORIX Corporation, one of the largest financial conglomerate in Japan.

(1) As a private equity professional, I was responsible for a deal manager and managed the entire process of private equity with a Leveraged Buyout (LBO) scheme; implemented deal sourcing, execution, post-merger integration, and exit; executed three investments, two of which successfully exited with over 30% IRR and 3.0x MoC; Led extensive post-investment plans as a board member for the acquired companies; hired CXO personnel and organized a new management team, planned follow-on M&A and implemented digital strategy.

(2) As an institutional investor, directed Limited-Partnership investments in domestic and foreign alternative investment funds like KKR, Carlyle, JC Flowers, and Unison Capital.

From 2006-2012, served as a professional accountant (CPA) at PwC and EY. At PwC: supervised financial statement audits and financial reporting advisory services for multinational investment banks; oversaw a multinational team with 10 members. At EY, executed financial due diligence, M&A structuring, and financial modelling for domestic and cross-border M&A deals.

Career highlights

- Grew a start-up company from 8 to 150 employees in 5 years and successfully led its successful M&A exit to a major IT company in 2020.
- Executed an M&A of another company in the start-up; handled negotiation and acquisition process; drove the integration of organizational culture and management system as the CEO of the company.
- Responsible for a deal manager and managed the entire process of private equity (LBO); implemented deal sourcing, execution, post-merger integration, and exit; developed and implemented investment plans including digital strategy.

Justin has over 25 years of private equity investing, legal and management consulting experience, investing in, managing, structuring and executing both public and private M&A and capital market transactions throughout the United States and internationally.

Justin founded Cornerstone Global Holdings and over the past 15 years Justin has been actively involved in all aspects of Cornerstone's capital raising and investment efforts, including the raising of all five Cornerstone funds, the initiation and management of new investment opportunities and the oversight of portfolio company development. Justin continues to be involved in sourcing new investment opportunities, structuring, financing and negotiating transactions and serving on the Board of Directors of Cornerstone portfolio companies.

Prior to forming Cornerstone Global Holdings, Justin was a corporate M&A attorney with Davis Polk & Wardwell in Menlo Park and Kim & Chang in Seoul, structuring, executing, and advising on a broad range of acquisitions, divestitures, and capital-raising transactions.

Prior to joining Davis Polk & Wardwell, Justin spent several years with Boston Consulting Group. While at BCG, he worked on numerous due diligence, strategy, and performance improvement engagements for financial industry clients and served large multi-line financial institutions, corporate and retail banks, wealth and asset managers, pension funds, sovereign wealth funds, payments companies, and select private equity players, and their respective portfolio companies.

Career highlights

- Achieved exceptional results as a private equity founder and manager, skillfully launching and investing in five funds with a 3.2x MoE and 33.9% IRR, and successfully closing all funds.
- Diversified investment portfolio by successfully creating a prosperous mixed-use real estate portfolio and thriving collection of restaurants, with a focus on securing long-term financial stability for retirement.
- Experienced professional with a track record of working and living in over 100 countries, an open mind to new cultures and ideas, and a passion for adventure and exploration.

Gustavo is a senior executive with C-Level responsibilities since 2009. He joined AI Engenharia (a family group) after graduating from Universidade Federal do Paraná in 2008 and was promoted to lead the Manufacturing firm after the severe effects of the World Financial Crisis. Following a successful turnaround and sustainable growth thereafter, he later co-directed a Steam Turbine factory. During his career, Gustavo has taken on several roles including leading investment analysis, M&As, lawsuits, union agreements, and corporate governance enhancements. This extensive track-record of senior management responsibilities converged in a deep experience of companies' full business cycles from sales to cash flows through the entire operational chain. Consequently, Gustavo was invited to join the first Board of Directors of AI Engenharia and became an advisor in the family's other endeavours in Agribusiness and Energy Generation. Notwithstanding, he conducted businesses in a very volatile environment regarding supply/demand, inflation, regulations, and political stability.

A strong believer that businesses should perform anchored on values of respect, trust, motivation, and dedication, he focused efforts on technical developments such as Brazil's first steam turbines for waste heat energy recovery, CSP (concentrated solar power) and waste to energy. Outside his principal company roles, Gustavo co-founded an NGO focused on sustainable farming and invested in a Health-tech start up aimed at mental health.

He is a thoughtful, charismatic leader who constantly defies the status quo and pursues innovation as a means to transform businesses.

Career highlights

- At the age of 24, directed a 9-month corporate turnaround subsequent to WFC and 4 years of compounded losses. Results were achieved through a major overhaul in the business strategy within product lines, niche markets, and operational organisation.
- Managed an 8-fold increase in revenues in 6 years of leading a manufacturing firm, meanwhile the recovered profitability was always kept in 2-digit zone.
- Led family group's financial strategies and co-led investment decisions that supported a 22-year CAGR of 25%+ in revenues, profits and net asset value.

Non-executive director

Bio

After an extremely successful career spanning 14 years in the luxury hospitality industry, across France, Mauritius, the United Arab Emirates & Djibouti, working for premier companies like Relais & Châteaux hotels, One & Only Resorts, and Kempinski Hotels and Resorts, Nirina returned to his roots.

Once in Madagascar, in 2010, he was surprised to learn that all the toilet paper in his country was being imported. Sensing an opportunity, set out on a journey of creating Société de Production d'Articles Hygiéniques (S.P.A.H), the only tissue paper mill in Madagascar and the Indian Ocean region to use recycled paper as raw materials.

Despite no background in the industry, he built a successful business from a scratch. He participated in all the important stages of the business which included sourcing a supplier for the production line from China, securing funding, importing required materials and machinery, installation and commissioning of the production line, staff recruitment and training, creating and growing the brand, and establishing a distribution network.

Within 5 years, his brainchild became the industry leader within the country, with a market share of 45%, and an EBITDA margin of 34%. More importantly, they recycled over c.1,500 tons of waste paper per year and provided employment to 95 people. He successfully exited from the company in December 2022 to pursue the Sloan programme at London Business School.

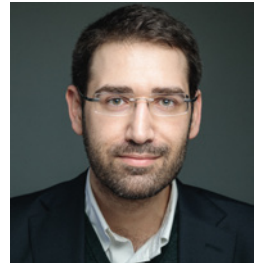

Nirina was also actively involved in the development of the private sector in Madagascar as President of Jeune Patronat de Madagascar and the Vice-President of the Groupement des Entreprises de Madagascar which is the largest employers' organisation of Madagascar accounting for 45% of national added value and 77% of all taxes.

Career highlights

- Founded a company that became a distinguished model of a sustainable social enterprise in Madagascar and the Indian Ocean region.
- Pioneered the creation of a sustainable network for collection and recycling of waste paper and cardboards in the country.
- Chaired the steering committee for creating the "White Paper" for the Malagasy private sector which formulated the long-term vision for economic development by the private sector based on the values of social responsibility and inclusiveness amongst others.

Bio

Samer is a business transformation, data & digital transformation, and strategy leader in Financial Services.

In his latest role he was responsible for Business Architecture and Data Product Management in the Wealth Management space. He established data and platforms strategy, ensuring alignment between business transformation and data, leading multiple product teams in building new and innovative data products and platforms, and improving processes to increase stability and performance.

Prior to that he was a Management Consultant providing advisory services focused on strategy, digital transformation, and data platforms for Fortune 500 companies. His clients included HSBC, Ernst & Young, Moody's, Options Clearing Corporation, and others.

He has a successful track record of delivery and building successful partnerships with cross functional teams, client partners, and C-Level executives.

He has led and managed large multicultural teams across geographies and regions and have business experience in the Middle East, North America, Europe, North Africa, and Asia.

After Sloan, Samer is looking to continue transforming financial services organisations and helping them leverage new and innovative strategies and solutions to achieve growth.

Career highlights

- Responsible for Business Architecture, Data Product Management, and Financial Data Platforms for a Wealth Management firm with over \$150 Billion in AUM.
- Proven track record of developing and implementing multiple strategy and organisation assessments to enable business & data capabilities, drive organisational change, and technology adoption.
- Provided advisory and execution services for Fortune 500 firms in strategy, business architecture, and data platforms.

Bio

Shouvik is an articulate leader who brings a wealth of transferable skills from a long military career into the business world. Having led very large teams to deliver critical projects under ambiguous conditions, his cross functional experience transcending domains can be valuable across industries that seek resources to solve problems while delivering assured, high impact results. He was selected for a military diplomatic engagement to represent India in Tajikistan as the Team leader on the basis of demonstrated track record.

Shouvik has been engaging with stakeholders across the spectrum of nationality, seniority, intelligence and capability towards alignment with organisational goals and successful mission implementation.

He has dealt with procurement of operational inventory, last mile connectivity in supply chains, planned and executed disaster relief and mitigation while handling operations with substantial budgets.

Lucid communication skills, analytical and logical thinking during a crisis and adaptability built up over 24 years handling a diverse portfolio of situations makes him an asset on any team. A blend of military leadership, decision making and business skills polished on the Sloan Programme lends him a unique perspective on challenges and problems of the business world.

Shouvik is keen to use his skills in the business world to add value to teams that seek to create impact either in consulting, general management or roles related to sustainability and governance.

Career highlights

- Led a 600 member cross functional team as Commanding Officer. Laid down strategic vision in conflict zone, delivering secure lines of communication with zero loss of life. All HR and operations functions including social impact goals of the organisation.
- Selected for a one year full time strategic leadership programme to groom future leadership of Indian military across the Army, Navy and Air Force.
- Maintained a profile of being within the top 10% of the batch consistently throughout a career spanning 24 years.

Bio

Deddy is a seasoned senior executive with extensive experience in strategic consulting, private equity investment and turnaround management. He was a founding member and valued culture carrier for McKinsey Indonesia. In addition to advising businesses on strategic issues, his work with McKinsey Global Institute and the World Bank, advising the Government of Indonesia, resulted in Indonesia's electronics industry strategic development blueprint.

As the Indonesia Country Head for Standard Chartered Private Equity Limited, he managed its USD300 million investment portfolio and served as Non-Executive Director in multiple investee companies.

As a senior executive in Indika, a leading Indonesian-based family office, Deddy served as CEO for multiple business units in chemical, entertainment and television broadcasting industries executing M&A, LBOs, turnaround management, capital raising and public listing.

Deddy co-founded impact-oriented SMBs in hospitality, sustainable housing, telecom retailing and nationwide BPO services employing 4000+ salesforce primarily from underprivileged backgrounds.

Married for 25 years with three children, Deddy is a family man who loves travelling, history, arts, theatre, and music. An avid explorer, he trekked to Mount Everest Base Camp with his wife in 2015.

Post-LBS, Deddy is excited about the opportunities to collaborate with other fellow leaders to build value-driven enterprises grounded on a strong learning and innovation culture to deliver impact to society.

Career highlights

- McKinsey & Co Indonesia founding member advising government, MNCs and national clients from telecommunications, pulp and paper, automotive, cement, and education industries in Indonesia, Malaysia and Thailand on strategy, restructuring and turnaround.
- Indonesia Country Head for Standard Chartered Private Equity managing USD 300 million investment portfolio and serving as Non-Executive Director for companies in airlines, retailing, oil & gas services, power generation and healthcare services.
- As CEO of PENI (Rev USD300mio p.a.) and Polypet (Rev USD100mio p.a.), led LBO from BP/Sumitomo/Mitsui, managed turnaround and exits. As CEO of NVM Tbk, raised USD200mio fund raising, led turnaround and USD 100 million public listing.

Bio

Yasuo Suzuki is a senior banker with 17 years of professional experience in corporate banking and strategic planning. He works for MUFG Bank, the commercial banking arm of MUFG (Mitsubishi UFJ Financial Group), the leading financial conglomerate in Japan. As a seasoned corporate banker, Yasuo has built a strong relationship with his customers. He has supported their business expansion and turnaround plans by providing sound and viable financial solutions. His keen intellect and analytical mindset helped to identify customers' hidden needs, evaluate their credibility, and take risks accordingly.

During his almost five-year experience in the strategic planning division, Yasuo was instrumental in enhancing the corporate value of two affiliate banks in Vietnam and the Philippines. By demonstrating and justifying the meaningfulness of these investments to top management, he played a pivotal role in generating synergies with these investees. He leveraged his strong interpersonal skills by successfully engaging various stakeholders with conflicting interests.

Yasuo is extremely passionate and his resilience, combined with mental agility helps him in achieving meaningful goals even in a challenging environment. His excellent organizational skills and ability to think logically, identifying the root cause by testing his assumptions enables him to align the interests of the relevant stakeholders.

He also has extensive international experience in Singapore and China. Yasuo always ensures communications are honest and open and walks the talk as a senior team member, leading a team with different cultural backgrounds.

Career highlights

- Led 8 staff members to realize synergy between MUFG and 4 consolidated/affiliated banks in ASEAN by providing more comprehensive and complementary financial solutions to MUFG's broader customer base; realized sharp increase in collaboration revenue.
- Played a critical role for supporting the turnaround process of clients with negative consolidated equity of over USD 5 billion by examining and demonstrating the customer could eliminate net debt in a short time through asset sales and presenting its business competitiveness through comprehensive analysis.
- Core member of USD 20 billion M&A deal of memory business sold by a client; provided financial advisory service and LBO finance, and subscribed preference shares by collaborating with other MUFG group companies.

Bio

Yerlan Tuleugozhin is a C-suite professional with over 18 years of management and leadership experience in extractive industries, mainly in Metal & Mining and Oil & Gas (upstream) sectors. Yerlan has previously held diverse leadership roles (CFO, CSO and others) in areas of financial management, corporate finance, corporate strategy and asset management, and most recently served as Chief Strategy Officer at global uranium mining leader, Kazatomprom, where he was particularly responsible for strategic development, asset management and driving corporate ESG agenda and efforts.

Yerlan has led implementation of operations excellence and cost optimisation initiatives during period of low oil prices, successfully led and managed key Metal & Mining deals related to uranium mining assets and their subsoil contracts. He has also successfully implemented turnaround and divestment processes of number of various assets such as drilling entity, caustic chemical plant, silicon mining asset, tantalum-beryllium plant and other non-core assets for Metal & Mining industry. Moreover he led corporate capital investment and sustainability committees and advocated important issues and major projects at the Board investment/audit committees.

Yerlan began his career as auditor at Ernst & Young and then shifted to Oil & Gas industry, where he held a number of finance-related roles and senior management positions, including cost controller and CFO position in the largest Oil & Gas joint ventures in Kazakhstan. He then moved to a uranium mining Joint Venture with French giant Orano, where he served as a deputy CFO before moving smoothly to the role of Managing Director of JVs and later appointed as a Chief Strategy Officer at Kazatomprom, the world's largest uranium producer.

Career highlights

- Built new corporate sustainability function and led corporate efforts for enhancing ESG performance and practices, substantially improved public non-financial reporting quality in accordance with international reporting standards and industry best practices (GRI, IIRC, SASB, TCFD).
- Led turnaround of drilling asset covering 60% needs of mining assets, performance and transparency improvement (capacity: 5000 employees, 110 drilling rigs).
- Led SAP implementation initiative (\$3MM project), which resulted in 20% reduction in time and efforts for reporting and 10% headcount optimisation (personnel cost reduction).

Bio

Mark is an entrepreneurial and energetic business leader with over 25 years of international experience at top-tier global finance firms. He has invested in, founded, bought, and sold multiple businesses across a large spectrum of fields. He has acted as a hands-on leader and held non-executive positions, positively impacting businesses to achieve their goals. His meticulous focus on details and deep technical understanding is complemented by genuine creative input that enables him to build and grow innovative, profitable, customer-facing businesses in highly competitive markets.

In his role as CEO of Bottlepay, Mark led the development and launch of a payment's platform at the forefront of blockchain and digital technology that combines utility, flexibility, and simplicity. During this time, he successfully completed one of the largest seed funding rounds of the year, which was oversubscribed, and he oversaw the sale of the company.

With many years of experience in global leadership roles for blue chip banks, Mark built and developed businesses driven by service excellence and bolstered by rigorous control frameworks. Their success has always been founded on the coherence of motivated teams, who share a common vision and ambition. He prides himself on his ability to engage and influence key stakeholders at all levels of an organization and invests time and effort into establishing a culture shaped by customer focus and collaboration.

Mark is a strong communicator, able to convey value propositions accessibly to a variety of audiences and give clarity and impact to thought leadership in both a business's priorities and strategy.

Career highlights

- One of the first companies to secure FCA regulatory approval and licensing as a cryptoasset business. The only licensed and compliant Lightning (layer 2 bitcoin protocol) company in the world.
- Envisaged, designed and built SCALE, a global fintech payments platform for Standard Chartered Bank.
- Lead a salesforce in 72 countries from a ranking outside the top 20 to being the top rated bank globally for client service in the Foreign Exchange.

Bio

Enyuan has a solid track record of running Private Equity portfolio companies and creating significant value. Working with PE funds, he has managed businesses at different stages - including startups, rapid expansions, and liquidations.

He has demonstrated ability to handle challenging situations, including experience in building large-scale business within a short time frame, stabilizing businesses under pressure, managing shareholder conflicts and detecting financial fraud.

Enyuan is always eager to explore new areas and has been a first-generation player in various fields in China including futures floor trading, strategic consulting, privatization of listed companies, and operational roles for PE portfolio companies.

Enyuan is the Managing Director of Zebra, a new technology private equity firm that focuses on creating value through operational control and fundamental research. He has also held leadership positions in some of China's leading companies including Shanghai Reliance Group, a leading environmental service and facility management company, and Yum China, China's most successful consumer goods company operating brands such as KFC, Pizza Hut and Taco Bell.

Career highlights

- Over the course of five years, Enyuan led a team that built 3000 wholly-owned Convenient Bee convenient stores, making the chain the most successful start-up in the new retail sector in China.
- Enyuan was instrumental to Advantage Partners' (a PE Fund) successful exit from the Shanghai Reliance Group and subsequent sale of the company to Primavera Fund.
- As Group CFO of a leading Chinese fine dining restaurant group, Enyuan implemented a successful business turnaround project.

Svetlana is a business and socio-intellectual leader with over 18 years of senior management experience. Known for her collaborative leadership style, she consistently delivers results and boasts excellent communication skills.

In addition to her primary responsibilities, Svetlana actively engages in side initiatives, showcasing her proactivity, leadership abilities, and influence. Her efforts are highly valued by her team, colleagues, and key stakeholders.

She excels at allocating resources and delegating authority, offering her team opportunities for growth and experience. This makes her a team player and an exceptional leader who adeptly manages career expectations and addresses succession planning challenges.

Svetlana's hallmark is pinpointing core issues and scrutinizing established methods. She is adaptable and resilient in the face of crises and uncertainties, always striving to learn and uncover the best practices in the market, regardless of the industry.

Svetlana has consistently been an empathetic and proactive volunteer, devoted to philanthropy.

Career highlights

- Drawing on the experience of the G20 group, I developed and implemented a national assessment and certification system for infrastructure projects in the business environment.
- As head of the legal department of the Ministry of Finance, I created the legal environment for the sovereign bonds of the Russian Federation and also implemented the legal concept of tax appeals in the Russian Federation.
- Introduced a new financial instrument (SIB) in Russia's legal system which allows the government to, in partnership with private investors, finance projects with a social impact.

Taka (Takahisa) Yamaoka is a senior banker with 15 years of experience. He currently works for Mitsubishi UFJ Securities Holdings, wholly owned by the Mitsubishi UFJ Financial Group, Japan's largest financial conglomerate. Taka has gained cross-functional exposure by spending the majority of his career working in the corporate centre in Japan and the UK. Taka is passionate and a strong relationship builder with high self-awareness and emotional intelligence.

In Global HR, he was de facto number two in the global rewards' team, across different countries with a matrix reporting structure. In addition, he developed the consistency bonus scheme, for all entities and branches outside of Japan.

In Global Finance, he implemented the strategic support of the financial strategy, optimizing capital and liquidity resources for the UK subsidiary. Leveraging his solid expertise in regulatory capital management, subsidiary management and financial accounting, from head office.

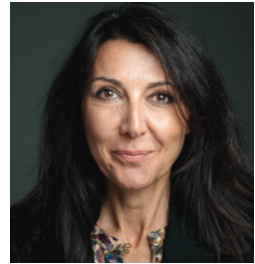

At the UK subsidiary of his previous firm, Taka joined the executive committee and provided comprehensive guidance, from the parent company's perspective. He also assisted in establishing a corporate governance framework, in a project team, to integrate the London Bank and Securities entities for Mitsubishi UFJ Financial Group.

Career highlights

- Achieved a new bonus scheme for 24,000 employees outside of Japan, aiming to transform the business model from the local entity-wide to the business group with 15 of our worldwide global reward members.
- Delivered a wide range of recommendations for disciplinary measures for employees involved in a loss event, which assisted senior executives in making their final decision within a limited period.
- Executed a new form (AT1) to facilitate a capital injection equivalent to GBP 375 million, into the UK subsidiary. This addressed a capital shortage attributed to Brexit by building a coalition amongst the finance, tax and compliance teams by leveraging his network.

Raffaella is an entrepreneur with twenty-five years of experience. She started in the family business as a controller and then moved on to roles of increasing responsibility, up to her current role which sees her engaged with total business responsibility. During her professional career, Raffaella enhanced her business skills by obtaining an MBA and a Masters degree in Public Policy and Social Change. She is passionate about socio-economic causes and dedicates some of her time to tackling social inequalities.

Raffaella has great communication skills which she displays clearly, concisely and confidently. She is a great leader who enjoys solving complex problems, while facilitating collaboration and motivating her team to ensure everyone feels a sense of ownership in the final decision. She delegates efficiently and is a strong believer in empowering others. She is adept at using qualitative and quantitative methods to interpret and evaluate socio-economic phenomena.

Her greatest strength is in her strategic thinking; "the big picture mindset". As a result of her problem solving skills, Raffaella is able to thoroughly analyse relevant issues, assess possible risks, communicate her views and come to a solution that delivers the best strategic choice for the company. Raffaella is an innovator – she believes in process improvement through advanced technology that delivers a superior customer service and sustainable impact for all stakeholders.

Career highlights

- Launched several innovation projects in collaboration with prominent engineering universities, helped preparation of technical documentation, involved suppliers and partners, keeping the team focused on results, budget and deadline. Improved sales by 20%.
- Acquisition of US-based company, in charge of due diligence process. Relocated to Detroit to manage the company and facilitate the integration with the parent company. Company has been operating since 2006 within the Group.
- Set-up a tool designed to fight inequality amongst children when which school to attend. A successful pilot, involving 45 families, will be replicated in three cities.

Emerson is a business leader with nearly 20 years of experience in the luxury fashion and hospitality industry. He has held leadership positions at prestigious companies such as Christian Louboutin, Loewe (LVMH group), Saint Laurent (Kering group), Prada, and Ermenegildo Zegna, where he consistently demonstrated a proven track record in scaling and turning around businesses, building and leading multifunctional and multinational teams, and crafting agile strategies throughout various phases of brand development.

As General Manager of Asia for Christian Louboutin, Emerson served as the board-facing P&L owner and was responsible for overseeing the company's business across eight Asian countries.

Prior to his role at Christian Louboutin, Emerson held key leadership positions at Loewe (LVMH group) and Saint Laurent (Kering group), where he was fully responsible for top-line sales revenue in the China market. Previously, as part of retail management team at Prada and Zegna, he rose from a store manager to an area manager overseeing 10 stores.

After completing his degree at Swiss hotel school Les Roches and management traineeship with some leading hotel chains in 2003, Emerson began his career in hospitality with Sofitel Hotels, where he was recognized as the youngest talent to be promoted to department head within the ACCOR group in China, before he transitioned to the luxury fashion industry in 2007.

Emerson seeks opportunities as Asia Pacific Zone President in leading luxury brands, or alternatively a consulting role in the luxury sector.

Career highlights

- Transformed Christian Louboutin's strategic directions in Asia, restructured Asia organization, expanded distribution network, sustained financial healthiness and business growth during times of uncertainty, and elevated brand communications.
- Tripled Loewe's sales revenue in China within two-year service, and quadrupled Saint Laurent's sales revenue in China during three-year tenure.
- Successfully turned around performance of Prada stores in east China and significantly increased Zegna's market share from 20% to 40% in responsible market.
